Make Minneapolis a Union Town

Ted Neal To Testify In 544 Suit

Ted Neal of the Kanawha City Defense Union Local 41 and head of the Area Committee of the International Brotherhood of Teamsters will start next week at the U.S. Justice Department to present evidence in support of Local 444 and other defense unions in the area to claim status as a civil rights organization.

Neal is expected to present before the commission hearings made by Local 444 and other defense unions in the area to claim status as a civil rights organization.

Labor is Urged to Back Dairy Month Aid Dairy Farmers

O rganized labor, which plays a major role in handling and consuming dairy products, was urged this week by the Dairy Month Committee to lend its support to National Dairy Month. The month in June is a time when the milk supply is at its peak and when the need for material help to the nation's dairy farmers. Herein lies the logic of the committee's call for real assistance to the farmers of the state who depend upon the milk business for a large share of their cash income.

"*Minnesota's dairy farmers receive over thirty per cent of their cash income from dairy products amounting to over 257 million dollars," Governor V. O. D. O. Stahl said.

"It is on the established fact that dairy products, and especially milk and cream, are the healthful and well being, due especially to their use by the dairy industry, that we are in the lead in the sale of dairy products.

Farms Appreciation Labor's Aid "

"The dairy industry is concerned mostly with the production of milk and cream and the sale of dairy products. The farmers appreciate Labor's aid in this work and in cooperation with the Dairy Month Committee in furthering the prosperity of dairy products."

We ask all organized labor to lend their support to the dairy industry by purchasing more dairy products, and thus aid the farmers and help them to live and to provide the best grades of milk and cream for all people who now have the privilege of using them."
Second Chicago Milk Strike Again Ends in Armed Truce

The second strike of the Chicago Milk Drivers Union Local 265 during the month ended May 26th with the drivers leaving the streets for the second time in a week. Negotiations are again under way and it is hoped that an agreement will be reached without a further strike. The drivers are demanding a wage increase and the management is offering a 30-cent increase. The strike began on May 19th when the drivers walked off the job in protest against the low wages and poor working conditions. The strike has lasted for five days so far.

With the Dairy Workers 407

George Benington

During the past month several new organizations have begun to spring up in the city. One of the most notable is the "United Farmers" cooperative, which was formed to promote fair wages and working conditions for dairy workers. The cooperative has gained a lot of support from workers in the city and it is expected to grow in the coming months.

The New Co-operative

A new co-operative society has been formed in the city to promote fair wages and working conditions for dairy workers. The cooperative has gained a lot of support from workers in the city and it is expected to grow in the coming months.

TAXI TOPICS

By P. H. Lewis

The present strike of taxi drivers in the city is a matter of great public interest. The strike began on May 19th when the drivers walked off the job in protest against the low wages and poor working conditions. The strike has lasted for five days so far.

The strike began on May 19th when the drivers walked off the job in protest against the low wages and poor working conditions. The strike has lasted for five days so far.

The United States Industry

A new organization has been formed in the city to promote fair wages and working conditions for dairy workers. The cooperative has gained a lot of support from workers in the city and it is expected to grow in the coming months.

A Fore-Warnung of Totalitarianism

(At the invitation of the Northwest Organizer, Harry Van Arsdale, the president of the International Brotherhood of Electrical Workers and vice-president of the United Electrical Workers, has written the following article dealing with the blighting of the federal government and the monopolistic structures of the American trade union movement. Local 3 of the one hundred unions under its control, the International Brotherhood of Electrical Workers, has been in the Feudal conference in New York and held plans for a march of 18,000.)

The powerful enemies of labor know that more than a single degree of the monopolistic facilities of the trusts and the corporations is being used to spread bitterness, decimate, harass, and destroy the organized labor movement. This is true of the political machine on the one hand, and the patent and trust legislation and the anti-trade union laws on the other. The trusts are a perfect embodiment of the idea of monopolistic centralization, but the patent system is in no way less effective in the accomplishment of the same end.

The patent system provides the antithesis of a competitive spirit. It gives to one man a monopoly of the use of an invention, the exclusive right to make, use or sell the same during the term of the patent. Thus a man can get a monopoly of the use of any invention and make it worth millions. The protective circuit which is the basis of the patent system is the same as the protective circuit which makes for centralization in the trusts; for both are devices for the exploitation of the commonwealth.

It is a common saying that in the commercial world, there is no such thing as a free lunch. But in the patent law, the man who consumes the fruits of the labor of others is not a thief, but a profit, and is allowed to live off the backs of others for the period of his patent. The sooner we realize that the system of patents is as harmful as the trusts, the better it will be for the labor movement.

A Dictionary of Labor Terms

Government Strike-Breaking Against Shipyard Workers Is Alarm Signal to Unions

On the National Picket Line

A recent government report on the progress of the strike of the shipyard workers in the Northwest is, in the main, an analysis of the strike and its causes. The report is a reflection of the government's attempt to prevent the growth of the strike and its tendency to spread to other industries. The report is also a statement of the government's position on the strike and its attitude toward the workers. The government's position is that the strike is illegal and that the workers should return to work. The report is a powerful weapon in the government's campaign to prevent the growth of the strike and its tendency to spread to other industries.

The government's report on the strike is a reflection of its attitude toward the workers. The government's position is that the strike is illegal and that the workers should return to work. The report is a powerful weapon in the government's campaign to prevent the growth of the strike and its tendency to spread to other industries.
