Stassen’s Plan to End Foundry Strike Is a Real Phony

The housewives’ plan for settling the seven-week Minneap- olis foundry strike is a phoniness and doesn’t come within the rules of meeting the strikers’ demands, the broad Strike Committee of 21 announced Wednesday morn- ing. Leading labor leaders said that the plan, advanced by Governor Strom, would be rejected by strikers at a special meeting Wednesday evening.

The Daily Free Press, which has been the official organ of the strikers up to the present time, was distributed this morning at the strike located on the southwest corner of the Masonic Temple and St. Peter’s Church by strike officers.

More Union FBI Victims Imprisoned

Three more Mid-West, Minnesota-based Union officials were placed in federal prisons last week as a result of the FBI frame-ups against labor. Charles J. Heil, business manager of the Brotherhood of Railway and Steamship Clerks Union, an organization of 50,000 workers in the United States, has been in prison for over two years. Joseph I. Schuster, a leading member of the American Federation of Labor, was found guilty of violating the federal anti-sedition Act and imprisoned for six months.

New Fink Suit Moves in Court

The suit can be brought by the company’s attorney. “Associated Federal” is now represented in the case by attorney Robert J. Flaherty, who was appointed a special assistant to the U.S. attorney general in 1940.

The suit case is before Judge Ralph J. Hiltz of the Fifth District Court of Appeals. The company’s attorney, in the hands of the company, has filed a brief asking that the case be remanded to the lower court for trial.

Dutch Mill Uses Non-Union Labor

The Dutch Mill company has never used non-union labor in any of its plants. The company has always used union labor, and has never fired any union member for any reason.

U-235 An Editorial

The infinite possibilities of U-235, the newly discovered uranium substance, have caused the public’s imagination to run wild. The substance, which was discovered by Dr. Enrico Fermi at the University of Chicago, is not only the most powerful element known to science, but it is also the most important.

The fate of this discovery is not yet clear. Some scientists believe that it may be used to produce a new type of weapon, while others think it may be used for peaceful purposes such as generating electricity. The U.S. government has already invested a large amount of money in the research and development of this substance, and it is likely that further discoveries will be made in the near future.

No Change in Bemis Strike

The old 114,000-strike has ended, but the new one has just begun. Bemis strike is still in progress, but there has been no change in the present labor situation. The workers continue to strike, and the company has refused to give in.

U-235: A New Element in the Fight for Peace

The discovery of U-235 has aroused great interest among scientists and has sparked a new era in nuclear physics. The element is a key component in the chain reaction that powers the atomic bomb, and its potential use as a weapon has raised many questions about its future.

The Future of U-235

While the exact uses of U-235 remain unclear, scientists are hopeful that it may eventually be used to generate clean and reliable energy. However, the potential for misuse of this powerful substance remains a concern, and efforts are ongoing to ensure its safe and responsible use.
Iowa Woodworkers Prepare for Action When Bosses Stall

Burlington, Iowa—Meeting in separate gatherings Saturday night and Sunday, the local unions of the Burlington, Des Moines and Cedar Rapids, Iowa, and the Dubuque, Iowa Districts of the United Mine Workers of America, have prepared for renewed action to win the men's demands.

Union meetings were held in the meeting rooms of the Grand Central Hotel, with the Burlington and Des Moines meetings being conducted by the local leaders, and the Cedar Rapids meeting being held in the meeting rooms of the Grand Central Hotel.

The meetings were called to order by the local presidents, who were present to discuss the current labor situation and to determine the best course of action to take in order to win the men's demands.

The meetings lasted for several hours, with the participants discussing the current labor situation and the need to take strong action to win the men's demands.

The local unions have decided to take action to win the men's demands, and will be meeting again in the near future to discuss the best course of action to take.

The local unions are committed to fighting for the rights of the workers and will continue to work towards a just and fair wage for all.

Card of Thanks

The local unions are grateful for the support and solidarity of the workers in the region and will continue to work towards a better future for all.

Gissing With 977

The progress of Local 977 during the summer months was given considerable coverage in early September in the press. Members of the local participated in various labor strikes, and their activities were highlighted in several newspapers.

Firms That Are Unfair

To be listed as a firm that is unfair is to be listed among the worst in the industry. Local 977 has compiled a list of firms that are guilty of unfair labor practices, and they will continue to publicize these firms until the wrongs are righted.

Nash Finch Caught with Rates Down

The Nash Finch Company, a major grocery chain, has been caught with rates down. The company has been accused of charging higher prices for certain items, and the union is demanding that they be brought in line with other similar companies.

Excavating Contract Brings Gains to 544

Local 544 recently signed a new two-year working agreement with the city's 23 companies engaged in excavating and grading for the City of St. Paul. The agreement includes provisions for the first week's vacation at pay with starting next week.

Below is the full text of the new agreement. All workers covered by the agreement are expected to begin receiving the new rates as of March 1, 1949.

The new agreement, which covers all workers in the city engaged in the field of excavation and grading, provides for a general wage increase of 20 cents per hour. The agreement also includes provisions for the first week's vacation at pay with starting next week.

Public Hearing Asked for on Contract

Public Hearing is requested on the contract. The hearing will be held on the contract by the Union. The hearing will be held on the contract by the Union. The hearing will be held on the contract by the Union.
