Westbrook Pegler, the Yellow Kid

Westbrook Pegler, the Yellow Kid, is continuing his diabolic attacks upon the trade unions. The Minneapolis Star-Journal is continuing to publish these attacks. All told, Pegler has departed in the course of the 3,264,000 members of the American Federation of Labor, his attacks have far from ceased. Pegler writes a class hate. He only cries "scrap of organization" of the trade unions. Pegler is the organ of the bosses and the exploiters of the wealthy. It is only organized labor that hinders. Pegler is an expert witness from the Labor Institute.

We deplore Pegler for the service he renders his master in making money. We don't want our executives to set up on the bosses' desk to quote them their fearful history and the plots and the racketeering.

Federal authorities anticipated but less than two per cent of the anti-labor legislation would be re-enacted in the majority of the states. But the large number of years since the passage of the laws has had no influence on the legislation. The laws are still in force in many of the states. The laws that are still in force are those that are in effect in the states that have not passed new labor laws.
