Excepts of his speech follow:

The Case of Nick Wagner

It is extremely important that each member of that group of in-
visible beings known as "heads of labor union locals" be clearly
apparent to the public. The case of Nick Wagner is one of the
most recent and dramatic instances of this.

In the court's original decision October 1st, Judge Cappa
granted a motion by the union to order Nick Wagner to turn
over his records to the union. Nick Wagner is the head of the
New England Division of the National Federation of Labor, a
union that has been in existence for 10 years.

Wagner was found guilty of embezzlement and sentenced to
prison. He was released on bail but is still under indictment.
