FIVE CENTS

On the National Picket Line

In these historic days of the building boom we are concerned with the highest principles of our movement. One of the most important is the right of the unemployed to work. The unemployed have new hope, true hope. The unemployed have new reasons to rejoice. The unemployed have new things to say. They are saying it with the strength of their numbers. They are saying it with the power of their unity.

Tom Williams from Heart Attack

Tom Williams, former organizer for the Minneapolis General Labor Union, who had been suffering from a heart attack, was released from St. Barnabas Hospital last night. Dr. George W. McKee, the attending physician, was quoted as saying that Williams was in a critical condition when he was admitted to the hospital. Williams had been active in the union movement for many years. In the early 1900s he was an active member of the IWW. He was later an organizer for the IWW in St. Paul, Minn., and in 1907 he was a founder of the Minneapolis Organizing Committee. He has been active in the union movement ever since.

To All Unions

When requiring, or when seeking, the services of men for any of their respective affairs as a union, be sure and notify us in advance. We do not wish to be too busy to do work for those who need help. We do not wish to work too much. We wish to work for those who wish to work for. We wish to work for the best interest of humanity.
