Free Speech on Trial; State Executive Committee Plans Debs Defense in Ohio

YOUR HELP NEEDED

To All Ohio Lords.

Comrades: Ohio is in the fight and it is up to us to do our part for her. The bonus depends on the willingness of every worker to fight; to stop strikes and to work for the President's ideas.

The recent decision of the Federal Court has been a cause of great joy to the working men of Ohio. It is a victory for free speech and against the State. It is a victory for all who are opposed to the policies of the Government.

The most active workers in every department of the State are in the fight. We have every reason to believe that the State will be victorious.

The first step is to get the lists with remittances to the State Offices.

The lists are needed to help Debs in his fight. We need your help to make the lists complete.

American Socialists Rally to Defense of Debs and Free Speech

(Special Correspondence)

Chicago, Ill.—To the anti-war and anti-imperialist American Socialists, the raid on headquarters of the Socialist Party of America, and the imprisonment of August Spies and others, are acts of the same magnitude, and of the same criminal character, as the incident of the trial of the 1891 Workers' Industrial Union which, in the hearts of the working class, made the Party famous, the slogan of the day, and the slogan of the class struggle, and the beginning of the Social Democracy. This was the first of the American Socialist Party's activities which made the Party famous, the slogan of the day, and the slogan of the class struggle, and the beginning of the Social Democracy. This was the first of the American Socialist Party's activities which made the Party famous, the slogan of the day, and the slogan of the class struggle, and the beginning of the Social Democracy.

Wages in Germany and Yous
By B. O'BEY
The first sentence in an editorial in the New York Sun, Feb. 27, 1898, exemplifies the accuracy of the German socialist's claim that "wages in Germany are higher than in any other country of the world." The article claims that "wages in Germany are higher than in any other country of the world." The article also states that "wages in Germany are higher than in any other country of the world." The article concludes with the statement that "wages in Germany are higher than in any other country of the world."
