AND 30,000 MINE WORKERS SAY: “RELEASE DEBS AT ONCE!”

"Yes, we can hear the determined voices of the 30,000 Indiana miners working up a demand as one man. "RELEASE DEBS AT ONCE!" Do you hear them? Is your ear attuned to justice for Debs and all political prisoners? Does your heart beat in sympathy for the 60 year old prisoner in the Atlanta penitentiary, who has labored diligently for forty years so that the working class might come into its own?"

"Toll begrimed mine workers, black with coal dust from head to foot, anti-capitalist system to work away their lives in dark coal pits, come forth to the light, look the "democratic" administration squarely in the face and shout—"RELEASE DEBS AT ONCE!"

"THEY MEAN IT! And Debs WILL be released, for the demand of these 30,000 wage slaves will become the demand of the 300,000 wage slaves of this "land of the free.""

"We shall stand united and keep pressing our officers of the working class as we joined by the thousands the ARMY LIBERATION, pledged to labor day labor day labor day that the coal beds and prison gates may swing open and Debs and all other political prisoners step forth. FREE MEN AND WOMEN!"

"New then—HERE’S A JOB FOR YOU!" You members of Labor Union—ATTENTION! We are the resolution passed by the convention of Indiana miners, which is printed elsewhere in this issue, to the next meeting of your union. Under the proper order of business, the resolutions and motions for a discussion of their adoption.

"DO THIS—PLEASE AND THEN send the OHIO SOCIALIST a line or two, in forwarding of the adoption of the resolution by your union, and tell us how many members it contains."

"We shall compile a roster of the unions and the membership they represent.

"We shall mobilize these hundreds of thousands of workers into a campaign to demand that their demand for Debs freedom be compiled with.

"THE POSSIBILITIES ARE GREAT!

Standing shoulder to shoulder, determined and determined, there are nearly half a million workers unyielding in their intentions that Debs be freed. HERE THEY ARE—the workers who have voted that the champion of the slave class shall again be placed into the protecting arms of labor."

"CHICAGO FEDERATION OF LABOR, representing 250,000 MINE WORKERS, Detroit, 40,000; United Mine Workers of America, 50,000; Chicago Federation of Labor, 12,000; 4,000; Federation Shop Employers, Denver, 8,000; Indiana Socialists, 1,000; 25,000.

"Hundreds of smaller worker’s organizations, of which we have no record, are the result of the release of Debs. These are the men and women who are the members and the membership of all other unions that have joined in this extraordinary demand for a political prisoner.

"WE WANT YOU TO JOIN US!"

"There is no use in tearing down the barriers that hold us apart. There is no use in tearing down the barriers that hold us apart. There is no use in tearing down the barriers that hold us apart."

"NOW—ALL TOGETHER!"

"There’s no time to lose."

"Let’s move now. Even if you are not a member of a Labor Union, YOU ARE NEEDED JUST THE SAME."

"There will be hundreds of thousands of judicious to distributing these resolutions, which will be posted to poster. And first of all, there will be a call made upon you to assist in collecting a LIBERATION FUND."

"AND NOW—WHAT DO YOU THINK OF THIS?"

We announced this campaign for Debs’ freedom two weeks ago. We followed our own desire with the release of Debs. Since then, our resolution and membership have multiplied.

"EXPERIMENT WAS ALL SET, READY FOR OUR FIRST OFFENSIVE, when, after nearly a week had passed we were informed by the capitalists of the corporation that they would not undertake the work we had placed with them."

"THEY TOOK US WITH DEBS IN JAIL!"

"We hurried to another company. This concern also sided with the capitalists that it was in their interest to have Debs in jail. We have given back our photos of Debs, of the prison gate, of the steel cell—and politely told to go elsewhere.

"HERE YOU HAVE IT!"

"A conspiracy as complete as any ever conned, to MAKE DEBS IN A PRISON CELL."

"There is no other interpretation.

"THE EMPLOYEES OUTFIT ORGANIZED TO KEEP DEBS IN!"

"YOU MUST ORGANIZE TO GET DEBS OUT!"

"We must join forces at ONCE to beat the immensity of the class that knows it can only keep up its game so long as the workers remain in dark and public relations."

"DEBS IS A TORCH-BEARER! He enlightens workers. He is dangerous to the slavers. He threatens their graft, the

The Dead Weight of Iron

The Reserve Army has been doing a lot toward the solution of the national defense problem, but there is still a great deal to be done. The following is an excerpt from a letter written by a soldier of the Reserve Army:

"Dear Sir: I have been thinking a great deal about the importance of the Reserve Army in the defense of the country. I believe that the Reserve Army is essential to our national defense, and I am willing to do my part in making it an effective force. I have been working hard to improve my physical condition, and I am ready to go into action at any time. I urge all our fellow citizens to support the Reserve Army and to do their part in making it a strong force."
Proflirer and Profit-taker

And now it is the feed-profiler that looms under the ban of public opinion. With his slick phraseology the feed-profit takes his easy money. No one appears to notice that he is responsible for the loss of the small farmer. He is the one who produces the surplus milk, eggs, and butter that the market is not able to absorb. He is the one who is responsible for the decline in the price of milk, eggs, and butter. He is the one who is responsible for the loss of revenue to the state. He is the one who is responsible for the decline in the state's income. He is the one who is responsible for the decline in the state's ability to provide services to the people. He is the one who is responsible for the decline in the state's ability to provide education, health care, and social services. He is the one who is responsible for the decline in the state's ability to provide infrastructure, such as roads and bridges. He is the one who is responsible for the decline in the state's ability to provide opportunities for employment and entrepreneurship.

There is no profit without sacrifice. The sacrifice is the loss of the small farmer. The sacrifice is the loss of the state's revenue. The sacrifice is the loss of the state's ability to provide services to the people. The sacrifice is the loss of the state's ability to provide education, health care, and social services. The sacrifice is the loss of the state's ability to provide infrastructure, such as roads and bridges. The sacrifice is the loss of the state's ability to provide opportunities for employment and entrepreneurship.

And so it goes. The feed-profit is the one who is responsible for the decline in the state's income. He is the one who is responsible for the decline in the state's ability to provide services to the people. He is the one who is responsible for the decline in the state's ability to provide education, health care, and social services. He is the one who is responsible for the decline in the state's ability to provide infrastructure, such as roads and bridges. He is the one who is responsible for the decline in the state's ability to provide opportunities for employment and entrepreneurship.

And so it goes. The feed-profit is the one who is responsible for the decline in the state's income. He is the one who is responsible for the decline in the state's ability to provide services to the people. He is the one who is responsible for the decline in the state's ability to provide education, health care, and social services. He is the one who is responsible for the decline in the state's ability to provide infrastructure, such as roads and bridges. He is the one who is responsible for the decline in the state's ability to provide opportunities for employment and entrepreneurship.

And so it goes. The feed-profit is the one who is responsible for the decline in the state's income. He is the one who is responsible for the decline in the state's ability to provide services to the people. He is the one who is responsible for the decline in the state's ability to provide education, health care, and social services. He is the one who is responsible for the decline in the state's ability to provide infrastructure, such as roads and bridges. He is the one who is responsible for the decline in the state's ability to provide opportunities for employment and entrepreneurship.

And so it goes. The feed-profit is the one who is responsible for the decline in the state's income. He is the one who is responsible for the decline in the state's ability to provide services to the people. He is the one who is responsible for the decline in the state's ability to provide education, health care, and social services. He is the one who is responsible for the decline in the state's ability to provide infrastructure, such as roads and bridges. He is the one who is responsible for the decline in the state's ability to provide opportunities for employment and entrepreneurship.

And so it goes. The feed-profit is the one who is responsible for the decline in the state's income. He is the one who is responsible for the decline in the state's ability to provide services to the people. He is the one who is responsible for the decline in the state's ability to provide education, health care, and social services. He is the one who is responsible for the decline in the state's ability to provide infrastructure, such as roads and bridges. He is the one who is responsible for the decline in the state's ability to provide opportunities for employment and entrepreneurship.

And so it goes. The feed-profit is the one who is responsible for the decline in the state's income. He is the one who is responsible for the decline in the state's ability to provide services to the people. He is the one who is responsible for the decline in the state's ability to provide education, health care, and social services. He is the one who is responsible for the decline in the state's ability to provide infrastructure, such as roads and bridges. He is the one who is responsible for the decline in the state's ability to provide opportunities for employment and entrepreneurship.

And so it goes. The feed-profit is the one who is responsible for the decline in the state's income. He is the one who is responsible for the decline in the state's ability to provide services to the people. He is the one who is responsible for the decline in the state's ability to provide education, health care, and social services. He is the one who is responsible for the decline in the state's ability to provide infrastructure, such as roads and bridges. He is the one who is responsible for the decline in the state's ability to provide opportunities for employment and entrepreneurship.

And so it goes. The feed-profit is the one who is responsible for the decline in the state's income. He is the one who is responsible for the decline in the state's ability to provide services to the people. He is the one who is responsible for the decline in the state's ability to provide education, health care, and social services. He is the one who is responsible for the decline in the state's ability to provide infrastructure, such as roads and bridges. He is the one who is responsible for the decline in the state's ability to provide opportunities for employment and entrepreneurship.

And so it goes. The feed-profit is the one who is responsible for the decline in the state's income. He is the one who is responsible for the decline in the state's ability to provide services to the people. He is the one who is responsible for the decline in the state's ability to provide education, health care, and social services. He is the one who is responsible for the decline in the state's ability to provide infrastructure, such as roads and bridges. He is the one who is responsible for the decline in the state's ability to provide opportunities for employment and entrepreneurship.
