CRUSH FOREIGN INVASION THEN
UNITE ALL WORKERS IN AIM OF
SOVIETS, SAYS LENINE

RUSSIA WILL PAY DEATHS IF REAL PEACE
IS GUARANTEED 1,000,000,000 FAVOR SOVIET

By Edward Bding

Budapest.—Premier Lenin today gave his first broadcast interview. He refused to answer my questions as transmitted by wireless.

Question: What is your political attitude toward the United States and its Allies?

Answer: With reference to the United States and Japan, I am opposed to the anti-Soviet and anti-American policies which serve only to enrich our competitors.

Many times we have offered peace to these states, but they have not even answered, and continue to wage war upon Hungary and the other independent nations.

The program we have now adopted is a single and indivisible union of workers and toilers, regardless of nationality or race.

Question: Under what conditions would you be willing to come to terms?

Answer: Peace can only be achieved by the complete withdrawal of all foreign troops from the soil of Russia. No other conditions are acceptable.

Belleville Miners Call
for General Strike

DEMAND FREEDOM FOR ALL CLASS-WAR PRISONERS
AND BUILD COMMON CONTROL OF INDUSTRY

A strike was called in the morning at the Globe Foundry near Belleville, Ill., which the miners say is due to the machinery operating in the mine.

The strike was called after a meeting of the miners in the town of Belleville, which was attended by the miners from the Globe Foundry and other mines in the vicinity.

Soldiers Lose Street Fight

At the meeting, the miners passed a resolution stating that they will not work in the mines until the machinery is removed.

The miners have requested the mine owners to remove the machinery and to resume work.

ANNEH PLANS MUNICIPAL

The first step in planning the work of the municipal control of the municipalities when they pass over to the control of the regular laborer was taken at the meeting of the miners in Belleville.

The meeting was addressed by the miners, who stated that they would not work until the machinery is removed.

NEW PRAGUE FOR SOVIET

The council of the municipal control of the municipalities, which was established by the miners, met and passed a resolution stating that they will not work until the machinery is removed.

In the meantime, the miners have resolved to continue their strike until the machinery is removed.

What they have Learned by War

What are they learning by war? That is the question of the day. All over the world, from France to Russia, from England to the United States, the workers and soldiers are learning new lessons. They are learning that no government can be trusted, that no one is safe, that peace is not possible. They are learning that only through the creation of a new world can they achieve a new order of things.

In no other country has this lesson been so clearly learned as in Russia. The Russian proletariat has learned that it can only achieve its goals through revolution. They have seen the results of revolution in the rise of the workers and peasants to power, the abolition of private property, and the establishment of a new society based on the principles of democracy and equality.

In other countries, the lessons of war are also being learned. In France, for example, the workers have learned that they must organize themselves into a strong socialist movement in order to achieve their goals. They have seen the success of the Russian revolution and have drawn inspiration from it.

In the United States, the workers are also learning new lessons. They are learning that they must organize themselves into a strong socialist movement in order to achieve their goals. They have seen the success of the Russian revolution and have drawn inspiration from it.

The lessons of war are being learned by the workers and soldiers all over the world. They are learning that only through revolution can they achieve a new order of things. They are learning that no government can be trusted, that no one is safe, and that peace is not possible.

Debs Goes to Prison

By David Yackman

Now hear this, brothers and sisters. If you are a socialist, then you are a friend of Debs. If you are a capitalist, then you are an enemy of Debs. If you are a revolutionary, then you are a friend of Debs. If you are a reformer, then you are an enemy of Debs. If you are a pacifist, then you are an enemy of Debs. If you are a war monger, then you are an enemy of Debs. If you are a dictator, then you are an enemy of Debs. If you are a capitalist, then you are an enemy of Debs. If you are a socialist, then you are a friend of Debs. If you are a revolutionary, then you are a friend of Debs. If you are a pacifist, then you are a friend of Debs.

NEED OF STRAIGHT THINKING

An editorial in the Cleveland Plain Dealer of August 8th, entitled "The Need for Straight Thinking," argues for the necessity of linear and logical thought processes in both politics and everyday decision-making. It emphasizes the importance of avoiding the complexities and contradictions often found in modern life. The editorial suggests that clear thinking, free from the chaos of multiple perspectives, is essential for progress and understanding.

WHO IS RESPONSIBLE?

Number 21 in a series of articles dealing with the concept of responsibility in various aspects of life. The essay explores the idea that individual actions and decisions have consequences that can affect the welfare of society. It discusses the importance of accountability and the need for individuals to take responsibility for their actions, especially in political and social contexts.

In The Week's News.

The Children's Bureau of the Department of Labor has received the final report of the research on the conditions which in the United States workmen's compensation laws have not yet become general. The report shows that the laws are not yet in operation in any state. The bureau has also received a report on the operation of the laws in 11 states where they have been in operation for more than a year. The report shows that the laws are operating successfully in those states. The bureau is now preparing a report on the operation of the laws in the other 39 states where they have been in operation for less than a year.

Dr. Max Levin, a labor attorney, has given a series of lectures on labor law in New York City. The lectures have been well attended and have received favorable reviews.

The Boycott that Worked

By Dr. Fischer, Austria

I have been in touch with many of the men who have been active in the Boycott Committee in Austria. They tell me that the boycott has been a success. The government has been forced to make concessions to the workers. This is because of the pressure of public opinion. The workers' movement has grown in strength and influence. The public is more conscious of its rights and more prepared to demand them. The government is afraid of the workers and their demands. It is therefore forced to make concessions to them.

The movement which culminated in the Boycott was not only the result of the work of the Boycott Committee, but also of the efforts of many other organizations, such as the Labor Party, the Social Democratic Party, and the Communist Party. The Boycott was not only a political movement, but also a social movement. It was a movement of the workers against the capitalists. The workers were determined to fight for their rights and to improve their living conditions.

The Boycott was a great success. The government gave in to the workers' demands. The workers were able to demand and obtain a better living for themselves and their families. The Boycott was a great inspiration to the workers of the world. It showed that the workers are not afraid of the capitalists and that they are determined to fight for their rights. The Boycott was a great victory for the workers and for the workers' movement.

The Boycott was a great example of how the workers can use their power to demand and obtain a better living for themselves and their families. The workers should not be afraid of the capitalists and should not give up their struggle. The workers should continue to fight for their rights and to improve their living conditions.
