Socialists in Military Prisons
Worse Treated of All Objects

A Letter To Ohio Locals and Comrades

CONTENTS:

Socialists in military prisons have been
in the rear of the Union. Socialists have
noteen a single case of political con-
misuse. The unanimity with which the
light has been cast against them is
enormous. The socialist organizations
in all countries have been in the rear
of the socialist movement. The socialist
organizations in all countries have been
in the rear of the socialist movement.

Communist Labor Party

Hands off Soviet Russia

The imperialists of the world are continuing their
insane armed intervention in Soviet Russia. The
counterrevolutionary Chilcots, genera, all foreign
aided ammunition and allied money continues shielding
the backs of the bourgeois workers and devastating
Rusilov. Therefore, are the bourgeoisie, the bourgeoisie,
thousands of millions of money and children suffer
of misery, starvation and disease.

The hands off the workers, and peasants of
Russia force end the yoke of exploitation and
oppression of capitalism. The workers and peasants of
Russia their life on foundations as will eliminate
all oppression of the poor by the rich. All exploitation of
the toilers by the capitalists. This is why the capitalists,
where all the power is concentrated in the hands of
the big monopolistic and financial interests, are waging
this premonitory war against Soviet Russia. Defending
their class in Russia they are thereby protecting their
own interests, for they know that the example set by the
Russian workers will inevitably be followed by the workers
of other countries.

Hence, America's participation in this war
against Russia!

American troops still on Russian territory, and
American ammunition and coal continue being used for
purpose of strangling the only proletarian Republic in
the world.

American's intervention in Russia is frequently refer-
to as Roosevelt's "billion dollar defeated." The word
is not only false as the formalities required for the waging
of this undeclared war exist nowhere. Roosevelt's
intervention in the absence of the consent of Congress. Yet, as a matter
of fact, it is not altogether President Wilson's private war. It
is in the interest of the whole bourgeoisie and the whole
of the imperialist world to maintain and strengthen
its imperialist world heavy money bag. American capital is
vitally interested in the defeat of the Soviet Republic and
the liquidation of the war, not stop at mere technicalities, even if it means
the violation of honor of the most sacred institutions. In waging this war, President
Wilson plays the part of the faithful servant of the American
philistines.

American workers, you must realize this, and
find it in your best interest. You must know that every
atom of ammunition and one grain of coal that goes to
the Russian workers and peasants who are now engaged
in the bloody struggle of the proletariat of the world —
those brigades of the international highways. You must
realize that American labor is yielding to the
American soldiery, the American soldier who is
fighting against the workers and peasants of Russia,
which is being sent from the United States to Russia,
means death for the many Russian workers and peasants
who are sacrificing themselves in order that the workers
and peasants of the world may be liberated from the yoke of
internal and external capitalistic stranglehold.

Workers of America! It is not sufficient to know and
bear all this in your mind, — you must act accordingly. Hands
off Russia. This slogan has already been adopted by the
British, French, Italian, and French labor unions, in Italy the workers are refusing to load ships
with ammunition and provisions destined for the foes of Soviet
Russia.

American workers, you must follow your example
and participate in sending tribute to the working
brotherhoods of Russia. You must show the Rusilov
peasants, to every regiment of the American govern-
ment to mail for active service in Russia, or for
load ships for the loading of supplies for the
Russian war, that the American workers are
supporting the cause of the Russian workers and
peasants. You must show the Rusilov proletariat
what American labor is, and begin to work for the
liberation of the workers of the world.

One answer: "HANDS OFF SOVIET RUSSIA!"

THE COMMUNIST LABOR PARTY

Alfred Warenhardt

State Secretary

Miners Revolt Against Government By Injunction

The government has displayed the high card of the coal
miners' strike, by sending in the coal police. By
injunction, the government has been able to stifle
the strike. This is the second time in the
War that the government has been able to
stifle the strike of the working class. The first
time was in World War I, when the
government was able to stifle the strike
of the coal miners.

Government by injunction already
includes a constitutional right of American
workers, by the Second Amendment. The
Second Amendment states that "The right of the people
to keep and bear arms, shall not be infringed."

No class of workers labored harder or organized more
for the victory of the working class than the
coal miners. The coal miners were the first to
organize a strike in the United States. They
were the first to strike for the right to
be represented by a union.

The government has taken the side of the coal
operators against the miners. It is not
enough that the government has a right to
fight the working class. It is also the
government's duty to protect the
working class.

The government has ignored the demands
of the workers. It has refused to recognize
the right of the workers to strike.

The government has also refused to grant
the workers the right to a living wage.

The government has failed to
protect the workers from
exploitation.

Socialists Against Capitalism

The socialist movement is growing
in strength. Socialists are
now organizing in workers'
unions and trade unions.

Socialists have been
active in the labor
movement for many years.

Socialists have been

Five Members of the Executive Committee, Communist Labor Party of Ohio

Minutes of State Executive Committee Meeting November 8-9

The meeting was called to order at 10:30 a.m. on Thursday, November 8, 1934, at the office of the Communist Labor Party. The members present were:

H. J. Smith, Chairman
T. D. Johnson, Secretary

The minutes of the last meeting were read and approved.

The Treasurer's report was read and approved.

The Secretary gave a brief summary of the activities of the party during the past month.

The need for increased propaganda work was discussed. It was decided to hold a series of meetings in various parts of the state to discuss the need for increased organization.

The Secretary presented a proposed budget for the coming year. It was approved by a vote of 8 to 2.

The next meeting was set for December 6.

The meeting adjourned at 11:30 a.m.

The Three Parties - Which One Is Yours?

The Communist Party of the United States is the only revolutionary socialist organization in the United States. It is the party of the working class, organized to fight for the interests of the working class and to bring about a socialist society.

The Communist Party is the only party in the United States that has the goal of building a socialist society. It is committed to the idea of a classless, stateless society, where the means of production are owned by the working class and controlled by the working class.

The Communist Party is the only party in the United States that is taking active steps to build a socialist society. It is organizing unions, supporting strikes, and working to build a strong socialist movement.

The Communist Party is the only party in the United States that is committed to the idea of a classless, stateless society. It is working to create a society where the means of production are owned by the working class and controlled by the working class.

Pamphlets and Books You Should Read

spread the light that should be the bane of every freedom-loving man and woman. Without the working class rising up and taking power, there can be no real freedom in this country.

War On The Reds

The war against the Reds is on, as its press reports of activities of the department of "justice" are realized and seen to be the work of the present government. No mention of the Red name is made in the press, but a great war in which we are soon to be a part is being waged, and the name of the Reds is nowhere mentioned.

The Reds are a group of people who believe in international socialism and are trying to overthrow the capitalist system. They believe in the establishment of a classless society where all wealth and resources are owned and controlled by the community as a whole. They are often associated with violence and terrorism as a means to achieve their goals. The government is working to suppress the Reds and their activities, often using the slogan of "war on the Reds."
BREAD AND ROSES

"We are a red flower, fighting." This was the sentiment that the thousands of workers who spoke at the annual May Day celebration in Chicago sent to the world. It was the sentiment of the workers who are fighting for more food and clothing, and better working conditions.

"The new world is in the making," said one speaker. "We are the builders of a new society, a society where there is no exploitation and no poverty."

The day was marked by a huge demonstration, with thousands of workers marching through the streets. The atmosphere was one of excitement and hope.

Socialists in Military Prisons

"I have been in solitary confinement for the past year," said a socialist prisoner. "But I will not give up. I will continue to fight for the freedom of all political prisoners." The prisoners were demanding an end to the use of solitary confinement as a punishment.

The day was marked by a series of speeches and rallies, with thousands of workers and socialist activists gathering to support the prisoners' demands.

The Black Sheep

"We are the black sheep of the flock," said a speaker. "We are the ones who are different, who think differently, who act differently. But we are the ones who will make the difference." The black sheep weredemanding an end to the capitalist system and the establishment of a socialist society.

The day was marked by a rally in which the black sheep were joined by thousands of workers and socialist activists to demand a better future for all.

"The situation in the West and South."

Well, well, how about the West Coast, where Picket Leitnart is fighting for the rights of strikers? And how about the East, where there are strikes in New York and Boston? The situation is tense everywhere, and workers are fighting for their rights.

"Socialism to the people."

"Socialism is the only solution to the problems of today," said a speaker. "We must work together to build a society where there is no exploitation and no poverty." The speakers were calling for the establishment of a socialist society where workers could live and work in peace.

The day was marked by a series of speeches and rallies, with thousands of workers and socialist activists gathering to support the speakers' demands.
