HALLERUDYAH—1

ORGANIZE THE PARACHUTE

Polk Co., Nov. 14, 1891
T. A. Hickey.

Hallettsville, Texas

Dear Sir and Comrade:—
I say, from reading The Worker
other Socialist papers that their
Several Socialist ministers sent
over the United States. Now I
what I want to know, is there an
ization in the United States for
preachers? I believe that there
be a Socialist Minister's Alliance
association for several different
gones.

2nd. To tear down denominational differences and unite these ministers for the common good.

I know precisely 3 or 4 Southern preachers who would like to work with their fellow preachers and others and talk over the conditions confronting the religious world today by so-called form plans and would carry out the teachings of Jesus and by walking right ourselves beside men and women to see the fruits of a new day, which will come. We are prepared or unprepared.

I want you to write me at once give me your views on this question. Also advise all preachers, through your papers, to write me. We would like to have their views on this question. I believe that would be the first step toward the establishment

the true church in principle. We
the plans in God's word of the
church but at the present we have
the principle. Please advise
ablest preachers to write me at
Folk-coun. Texas, about this
