Progressives and Communists

The Character of the C.P.L.A. - Left Wing and Progressives - Two Dangers for Communists

by Ben Gilion

The present economic climate has steadily thundered against American workers, who are being forced to accept a lowering of wages, a reduction in working hours, increased unemployment, and a shorter vacation period. The working class is being forced to accept a lowering of the standard of living, while the employers demand a reduction in the cost of living. The situation is a reflection of the capitalist system, which is at war against the working class. The only solution to this problem is the elimination of capitalism and the establishment of a workers' state.

The C.P.L.A. and Communists

A Red Dagger At the Heart of French Imperialism

Communism in Alsace

by Jay Lovestone

"Play me a jig to the January Jazz!" I tell the hotel porter, who has just placed a tray on my hotel table. "I might as well try to listen to the music while I'm away from the United States."

For the first time in American history, the United States is not only in a war, but it is being fought from within. The war is not only against Germany and Austria, but against theJBactivity of the Great Democratic party, which has been the most progressive and effective of all the parties for the last hundred years. As I tell the porter, I might as well listen to the music while I'm away from the United States.

The French Communist Party in Alsace

Charles Charles Hubert, leader of the Commissar Party of Alsace, is now known as the "Red" party in the heart of French Imperialism. He is the leading French Communist, and is working for the overthrow of the French government. He is the most powerful and effective of all the parties for the last hundred years. As I tell the porter, I might as well listen to the music while I'm away from the United States.
