**Apology to League Convention**

*Declaration of the Communist Youth Opposition*

**July 13, 1931.**

The N.C.L.C. and the Y.W.C.A. have decided that the League's first two years have seen great growth. The League, it is said, has grown at a rate few could have expected. The increase in membership is apparently only one of two significant factors in the League's growth. The growth has been most striking in the field of organizing, with an increase of 600 in the number of local committees,

WHITHER GERMANY?

WASHINGTON, D.C. - The question of "whither Germany" was asked at a recent meeting of the American Civil Liberties Union by a member of its legal staff.

"The American Civil Liberties Union is concerned with the future of Germany," said the lawyer, "and we are not alone in this. The future of Germany is a matter of international concern."

"The question of "whither Germany" has been asked many times in the past, but this is the first time that it has been asked in the context of the current situation in Europe."

"The answer to the question of "whither Germany" is not easy to determine. It depends on a number of factors, including the policies of the United States and other countries, the actions of Germany itself, and the will of the German people."

"The United States has a vital interest in the future of Germany, and we are committed to working for a peaceful and stable Europe."

"The American Civil Liberties Union is committed to this goal, and we will continue to work towards it regardless of the outcome of the question of "whither Germany."

"The future of Germany is a matter of concern to us all, and we will continue to work towards a peaceful and stable Europe."
