**THE FURRIERS FIGHT FOR UNITY!**

by A Fair Worker

New York City

On Thursday, July 21, members of the Furriers Union No. 1, T. I. F., staged a mass meeting to demand "Fair Contracts for Fair Employees"! In the audience were leaders of the fur industry, representatives of national unions, and the workers themselves. The meeting was held at the Audubon Temple, 822 Eighth Avenue. It was attended by thousands of garment workers, who were joined by thousands of additional garment workers throughout the country.

The furriers have been fighting for fair contracts for fair employees for years. They have been forced to do so by theemployers, who have tried to keep them in the dark about their rights. But the furriers have been fighting back, and they have been winning. They have been winning because they have been fighting for what is right, and they have been winning because they have been fighting with the support of the workers and the community.

Stalin to the Industrial Executives

On the Road to Socialism

by Joseph Stalin

What About that General Strike?

Almost two years ago the American Federation of Labor delivered to the President of the United States a letter protesting against the collective bargaining agreement with the railway companies. The AFL letter complained that the contract did not give the workers full rights, and that they were not entitled to receive the benefits of the agreement.

The agreement covered all the workers on the railroads, except those employed in the construction of new lines. The purpose of the agreement was to provide for the payment of wages, and for the regulation of working hours and other conditions of employment.

The AFL letter protested against the fact that the agreement did not give the workers full rights, and that they were not entitled to receive the benefits of the agreement.

The Railway Labor Act was passed by Congress in 1920, and it took effect on January 1, 1921. The act provided for the settlement of labor disputes by compulsory arbitration, and it also gave the workers the right to strike and to enter into collective bargaining agreements.

The act also gave the workers the right to organize and to engage in collective bargaining. The act was a great victory for the workers, and it opened the way for the development of the labor movement in the United States.

The act was a great victory for the workers, and it opened the way for the development of the labor movement in the United States. The act was a great victory for the workers, and it opened the way for the development of the labor movement in the United States.
