"The American Dole System"

by R. Macklin

The labor depression has become one of the most far-reaching changes in the American political and social life. The depression is a condition of hardship and distress, affecting the whole social structure of the country. The depression has been caused by a number of factors, including the collapse of the financial system, the decline in industrial production, and the increase in unemployment. The depression has had a profound impact on the American economy, and its effects are still felt today.

Capitalist “Planning” in U.S.A.

by Jay Lovestone

The depression and the poverty of the workers – the more considerable growth of the capitalist system in recent years – is the most striking indicator of the growing monopoly of the capitalist class. In the depression, the capitalist class is faced with the necessity of increasing the surplus value of the workers.

Capitalist “Planning” and Socialist “Planning”

Among the most important, certainly the most important, of capitalist plans is the “fine line” of the depression. The depression is not only a reaction to the capitalist system, but it is a reaction to the capitalist state...

Basic Features of Capitalist “Plans”

1. Capitalist planning is not a “fine line” of the depression, but a reaction to it. The depression is not only a reaction to the capitalist state, but it is a reaction to the capitalist state of the depression...

2. Capitalist planning is not a “fine line” of the depression, but a reaction to it. The depression is not only a reaction to the capitalist state, but it is a reaction to the capitalist state of the depression...

5. Capitalist planning is not a “fine line” of the depression, but a reaction to it. The depression is not only a reaction to the capitalist state, but it is a reaction to the capitalist state of the depression...

Aims and Objectives of Capitalist “Plans”

1. To increase the surplus value of the workers.

2. To increase the surplus value of the workers.

3. To increase the surplus value of the workers.

4. To increase the surplus value of the workers.

5. To increase the surplus value of the workers.

6. To increase the surplus value of the workers.
