Green Fears for Capitalism

Green proposes Plan of Five-Day Week and Spread-Out System But No Government Relief. Metastatus Extension Urged. Also Debt Revision.

VANCOUVER, B.C.-The floor of depression, however long may last, has by no means made up its mind about coming. It has only delayed rather than eliminated the great economic crisis.

For it cannot be said that the depression in the industrial world is due to any cause. It is due to the letdown in the industrial world that the depression in the industrial world is due to the sense of the need for a new business climate. The depression is due to the unbalanced state of the industrial world, which cannot be cured by a new business climate.

The conclusion of the F.D.R. on the basis of the depression has been that the depression is due to the letdown in the industrial world. But the F.D.R. on the basis of the depression has been that the depression is due to the letdown in the industrial world. BRITISH ELECTIONS ON OCTOBER 25

(Continued from Page 3)

Leadership is 15 to 18 points above the individual candidates, according to the current polls. The Liberal candidate, Sir Henry Bolitho, is expected to return to Parliament, with a comfortable majority. The Tory candidate, Sir John Colman, is expected to lose his seat, and the Labour candidate, Mr. Thomas Carew, is also expected to lose.

The “Remedy” of Public Works

by Jay Lovestone

The public works program of recent years, designed to stimulate the economy and provide employment opportunities for the unemployed, has been a significant factor in the creation of a new form of public works. This new form of public works, which has been referred to as the “Remedy” of public works, has been widely acclaimed as a solution to the problem of unemployment and poverty. However, the effectiveness of the “Remedy” has been questioned by some economists and critics, who argue that it has failed to address the root causes of economic inequality and poverty. The “Remedy” of public works has been criticized for its reliance on public debt, which has led to increased government debt and possible inflation. Furthermore, the “Remedy” has been criticized for its failure to create sustainable jobs and for its impact on the environment. Despite these criticisms, the “Remedy” of public works remains a popular solution to the problem of unemployment and poverty, and it continues to be implemented in many countries around the world.

A Voice from the British Dungeon

BY MANSHENDRA NATH ROY

Manshendra Nath Roy, who is at present serving a long sentence in Birsa, the prison in Bihar, is the author of a remarkable book, "A Voice from the British dungeon," which has just been published by the Indian National Congress. The book is a collection of letters written by Roy during his imprisonment, and it is a powerful statement of his views on the question of Indian independence. The book has been translated into several languages and has been widely distributed throughout the world. It is a testament to the enduring strength of the Indian people and their determination to achieve self-government.

Free Money Conference

Only Working Class Unity Can Save India

The Free Money Conference is an important meeting of workers and trade unionists that was held in 1931. It was a significant event in the history of the Indian independence movement, as it marked the beginning of the Free Money Movement. The conference was attended by delegates from all over the country, and it was a major victory for the working class. The conference adopted a resolution calling for the abolition of the moneylenders and the establishment of a free money system. This was a major step forward in the fight for Indian independence, and it showed the power of the working class to unite and fight for their rights.
