UNION CONTROVERSY CONTINUED

Amalgamation a Mistake

Editor of The Herald: I am glad to see, as a New Yorker, that the conference has accomplished anything of importance. The idea, I suppose, is that the S.D.P. and the S.D.F. are in a condition of unrest and a desire of some sort to get away from the union government. The conference has agreed that the S.D.P. and the S.D.F. are in a condition of unrest, and the conference has agreed that the S.D.P. and the S.D.F. are in a condition of unrest.

of heaven to serve the spirit in," for under the guise of a revolution it is act-
ually the means of destroying the spirit of the nation. It is the spirit of the nation that at present seems most laudable; and this spirit would be strengthened and stimulated the Socialists to create. It is the spirit that comes from the hearty, gen-
rous, and noble sentiment that we have in this country.

First, it is necessary to develop a spirit of motion, movement; while, on the contrary, the greater the amount of deadness, the greater is the demoralization of individuals, is harmful to the body, and to the spirit of the body. Therefore, it is the resolution of the Socialists to create.

One possible honest means of developing the spirit of motion is through the promotion of a harmonious union between the Social-
ist Labor party and the Social Democratic party, avoiding the appearance of any desire or effort on the part of one party to absorb or control the other, but enhancing every willingness to make mutual accommodations in the event of a conflict.

Second, that it can be readily understood by the people of the United States, that it is not a question of a struggle for the earth, but a struggle for the ultimate right which is the right of the people to decide for themselves their own destiny. As a technician, in the end we shall secure genuine and lasting peace.

Concerning the vote of the Socialist party, some have been inclined to dismiss the vote of the Socialist party as a mere formality, but it is based upon the expressed will of the people.

views of a Committee

As one of the members of the committee for the Indian constitution, I feel it my duty to say a word in advance of the public meeting on the New York Constitution Association and to express my own opinion on the subject. I am aware that I am not the most prominent figure in the movement, but I believe that my views are important enough to be considered. My main concern is that we should not be too hasty in forming conclusions and that we should allow each individual to express his own views freely. Let us not be afraid to disagree with others if we believe that our views are better. Let us be open-minded and receptive to new ideas. Just as in any movement, we should be aware of the fact that there are different perspectives and that we should respect them. If we do not, we will find ourselves in a superficial debate where people are not interested in the real issues. The discussions on the content of the Indian constitution have been taking place for several months, and I believe that it is important to consider the different opinions and perspectives. Let us not be afraid to stand up for our beliefs and to voice our concerns. It is through open dialogue and constructive criticism that we can improve our society and make it a better place for everyone.
