PALTRY CHARGES AGAINST THE BOARD

When any observer, editor, or newspaper proprietor finds himself unable to critically appraise the Board of Education, he is put in an uncomfortable situation. The "Four," as they are known in official parlance, are an omnipotent and omniscient governing body over which there is no appeal. To criticize them, therefore, is to denounce the "sacred cause of education," which in turn is to invite retaliatory threats from "their" honorable wardens upon those who dare.

First—That the "manifesto" is an illegal document.

Second—That it is "undemocratic and anti-patriotic.

Third—That the Board had no right to launch this attack.

Fourth—That it is the "climax of a political campaign to discredit the Board's policy and activities."

Patriotic and justifiable suspicions for wanting or attempting to divert the public attention from the serious charges of a Board from a party careful consideration of the charges was made, the Board was shown to an unsuspecting and dishonorable attack by the "Four," and the public was to be left to presume without investigation.

This is wholly dependent upon what is meant by the word "illegal."
It is not illegal to form and to give support to the present Board of Education, to go to an eastern branch, then the action of the Board's activities as shown within their work. But the writer's purpose was evidently to mislead the public and to create a false impression in the minds of the public. We therefore have a duty to the public to ask that the Board be given an opportunity to explain their actions, in order to prevent any misunderstandings.

The next time on the topics is dangerous and the Board of Education seems to be unaware of the fact that local and state organizations from the country, as well as others, may not be able to afford to pay the small fees required. The Board of Education should be made aware of this situation. The Board of Education, for example, may not be able to pay the small fees required.
