ANOTHER ADVANCE IN WISCONSIN FOR SOCIAL DEMOCRACY

I am bound to confess that I am one of those who are more interested in getting but few things to lose" by the present system. I have stood by and see the people suffer, the poor suffer, the wronged suffer. I have, therefore, joined the conscience. Have you joined the conscience? This is an important question. It is more important than any other question that we have to answer. We are going to work for the betterment of society. We are going to work for the benefit of all the people who are suffering. We are going to work for the benefit of the working class. We are going to work for the benefit of the workers. We are going to work for the benefit of the people. We are going to work for the benefit of the community. We are going to work for the benefit of the country. We are going to work for the benefit of the world. We are going to work for the benefit of humanity. We are going to work for the benefit of all the people. We are going to work for the benefit of all the people. We are going to work for the benefit of all the people. We are going to work for the benefit of all the people.

ORGANIZATION WANTED IN EVERY STATE OF THE UNION

In this city we will find calls upon us to give our attention to the organization of the Social Democrats in Wisconsin. There are three organizations working under different names. The first is the Socialist Party of Wisconsin, which has been in existence for several years. The second is the Wisconsin Labor Party, which has been in existence for a shorter time. The third is the Wisconsin Socialist League, which has been in existence for the longest time. Each of these organizations has its own program and its own leaders. Each of these organizations has its own members. Each of these organizations has its own influence. Each of these organizations has its own strength. Each of these organizations has its own weakness.

Eugene V. Debs to Organized Labor of St. Louis

In the St. Louis office of the National Labor Union, Eugene V. Debs sent the following message to the members of the National Labor Union:

"Dear Brothers and Sisters of the National Labor Union:

I am here, and I have come to address you on the subject of our work. I have come to address you on the subject of our work. I have come to address you on the subject of our work. I have come to address you on the subject of our work.

To make men free has been the dream of the human race. It is a way to bring about a better world for all. It is a path to true happiness.

A SUPREME FARGE

By Chas. Thrash

When Louis Brandeis, Chancellor of England, visited the country a few years ago, he was asked what he thought of "our glorious Constitution". He replied: "I don't think the American Constitution is worth a damn."

With this, he tripped the coffee table with his hand, "because I know that there is nothing in it that cannot be changed by the will of the people."

A tall, able politician, a man of fiery spirit, but the man who has the courage to stand up for what is right." How does he rate his own country?" he asked, "I think it is a great country, but I think it is a great country that needs a great deal of improvement."

The Brandeis message was one of hope and courage. It was a message that inspired the people to work for a better tomorrow. It is a message that we should all take to heart.

THE ECONOMIC JUGGERNAUT

Hoarse, horrible and strong
Roused by the power that his soul abhorred
Filling the air with a throaty
to the sound of a great wave

Warliet. The trail of the Connoisseur
Over all we go
Doomed to be forever in his service

While some people may believe that our economic system is a juggernaut that runs over all those who oppose it, I believe that it is a system that needs improvement. We must work together to create a more just and equitable society.

The system cannot and should not be dismantled. We must find ways to work within it, to critique it, and to transform it. Only then can we create a more just and equitable society for all.
NOTES FROM THE Field
A desire has been expressed for the organization of Cope, Massachusetts, for Chicago, which promises to be real. The appointment of organizers on the Fourth, Wives of numbers and female leaders of the state are leading to organize women would be helpful to the Cope, and these women so organized would have the support of the organizing women. This is a step in the right direction. The women are urged to request the section of the state to which they belong for women to be appointed as organizers. The women are encouraged to organize for the Chicago rally on May 28.
