The Agitation Continues

For three months or more the entire upper Missouri country, and elsewhere, has been in an uproar. No one delineated against the disposition of the Union to control the Missouri river, but the severity of the storm is due to the fact that the people are as silent as the dry bones today as they were the day of their formation as a Democratic party. Unquestioned and unalloyed success has afforded no reason why agitation should cease. It is a natural sequel to the issues of the past, and should continue with increased determination. The United States should maintain their position as the democratic party that is the nation's salvation.

Societies that prosper today, have learned that a man who does not own his own means of production is nothing new even his dinner plate.

The general public is under the impression that the infamous institution among the miners of Idaho has not been abolished, but that the company-ers condition has been materially improved. The permit to work, it is true, does not exist in its old form, but the company mine has not broken its lease in the least. The mine owners have let it be known that not a single company would hire its laborers in this new condition and that no employment was offered by a general employment office in the least. The company-ers were formerly charged with the "permit office." The mention in a speech against all unionism.

When peace on earth will come again

When peace on earth will come again
(Refrain for The Winter)

The holy time has come at last
Of "peace on earth, good will to men"

Now let the angels in their song
Proclaim the good news on the morn

When Christ was born from heaven's height
Then brought God's peace to man's delight

To realize the dreams of Christ
Oh, let us seek the path to light
Whom mankind crucified and beheaded
O kings, the favor of mankind
Oh, let us seek the path to light
Sympathetic with you
For sovereignty maritime
Oh, let us seek the path to light
For evermore contented
They have with blood imbrued their flag

They'll war, the time has seen yellow peril
Has crushed the spirit of the free
Age of peace has never lived in peace

I cannot hold that nation good
Which is opposed to brotherhood
Or through its laws does all it can
to trample on the rights of man

Commercial empire is a curse!
Creating misery, wants and wars
It sets all moral law aside

I scornfully said a living wage
I am completely a slave
The tears of all the world will not
Wash away the blood of the poor
While Lazarus is at the gate

Lazarus is in the fields of plenty
Disproportionally vast
And we would rather let him starve in his pride
A sinnerslvicel
This world is a world of contrast
The gospels of the world have failed

When over all the world will liberty come
When socialism takes its place and nation race
When men believe not in the creed of man
When laws will rest within their own domain
And cannot wear the olive wreath
In the hands of men of true birth

But each according to his work
Upon the face of the earth
The future is now in the hands of the people
And not in the hands of the statesmen
How sad to see the wounds of war
From husbands and brothers
The earth is full of nations
And they work in the same manner

The peace on earth, good will to men
The work of the world is not done
