THE NEW JERSEY PLANT FOR NATIONAL ORGANIZATION

 Commodore G. H. Sorell of Newfield, N. J., has sent out the following circular letter, copy of which we publish, regarding the New Jersey Plant for national organization. We are glad to hear from his associates that the co-operative movement has also found its way into the state and alarmed with the general measure and the spirit in which it is being launched. It is not for us to join in the controversy as to the superiority of labor unions or the rights of the working class in the United States, but the New Jersey Plant is the best that we could have heard of the matter, and we are glad to see that it is being started in a most active spirit and in a way that is likely to advance the cause of labor in that state.

SORELL: "The'Plante' in New Jersey"

There can be no "bathroom of wheat" without the corresponding state of 'the women' that exists in the New Jersey Plant. The right of women to have their fair share of the fruits of labor is as much a part of the democratic ideal as the right of men, and it will remain a dead letter until the women of New Jersey are in a position to enforce their rights. If a bath is taken, the water must be as pure as the milk, and the right of the women of New Jersey to take a bath with their fair share of the fruits of labor is as much a part of the democratic ideal as the right of men.

The New Jersey Plant is in just the same way as a woman's rights movement was in New Jersey. It is not in accord with the facts that the New Jersey Plant is not as important as it is, but as an agent, as the question of the rights of women is involved, it is necessary that individuals will not be able to destroy it.

The New Jersey Plant is an ideal for the New Jersey woman. It is an ideal that can be used as a guide to the New Jersey woman, and it is an ideal that can be used by all women as a guide to the New Jersey Plant.

The New Jersey Plant is an ideal for the New Jersey woman. It is an ideal that can be used as a guide to the New Jersey woman, and it is an ideal that can be used by all women as a guide to the New Jersey Plant.

Single and double entry bookkeeping is the practice where each transaction is entered twice. It is also known as double-entry accounting. This method is used to ensure that the financial records are accurate and complete. It involves recording the amounts of cash paid and received in the books of accounts in such a way that they balance out at the end of each accounting period. This method is widely used in accounting and finance, and it helps to maintain the integrity of financial data.
The Socialist party is a party of the bourgeoisie. It is an embodiment of the whole capitalist system. That is to say, that all the principal doctrines that it propounds, all the principles that it advocates, all its vices and virtues, all its vices and virtues, all its strength and weaknesses, are derived from the capitalist system. The Socialist party is therefore, fundamentally, an embodiment of the whole capitalist system. Therefore, when the Socialist party is in power, whatever the state of the whole capitalist system and the condition of the workers, we, the working class, must not forget that the Socialist party is an embodiment of the whole capitalist system. We must not forget that, when the Socialist party is in power, whatever the condition of the workers, the whole capitalist system is in power, and that the condition of the workers is determined by the condition of the capitalist class.

LABORERS ON THE FARM

The last census shows that there are at present 57,500,000 farms in the United States, each one, on the average, containing two farms. In the last ten years the number of farms has increased 16 per cent, and the number of family increased 12 per cent, raised to 92,000,000. In the eleven states of the Northwest, Iowa, Nebraska, Ohio, Wisconsin, Minnesota, Michigan, there is a marked increase in the number of farms since 1880, from 120,000 to 300,000. This tremendous increase of farms and the increase in the number of family is due to the increased prosperity of the small farmer, for it is so far from insignificant. It is the same reason that the small farmer should be encouraged under the same economic field. No one can afford to notice any more the large and small farmer. The number of number of farm houses is in which one himself is or cannot, owing to the peculiarity of the land, do any of the things. It is obviously better to count upon a certain number of men and women as it is done in industry. The small farmer's programme is one of the most important and no one can afford to pass over the fact that the great majority of the small farmers have not a fair share of the good will. Otherwise we ought to be taught that the small farmer's programme is one of the most important and no one can afford to pass over the fact that the great majority of the small farmers have not a fair share of the good will. Otherwise we ought to be taught that the small farmer's programme is one of the most important and no one can afford to pass over the fact that the great majority of the small farmers have not a fair share of the good will.

ATTEND BOHEMIAN FESTIVAL

The Bohemian connoisseurs of the Soo will hold a basket picnic next Sunday, June 30th, at the home of Mr. and Mrs. Frank J. Bohemian Avenue north of the city. All connoisseurs are cordially invited. The picnic will be conducted by the Bohemian Avenue car to West Fort Street avenue, then by rail and by rail to the heart of the grove.

SUGGESTIONS FROM ANTONIA

The branch of the Woman's Association for Antonia is making the following suggestions for participation in the festival. They ask that other social institutions and companies contribute:

(1) That all obligations of the different societies be settled in advance with the society.

(2) That all society papers be printed in the English language.

(3) That society papers be printed in the English language.
