WE CONGRATULATE THE
FEDERATED TRADES COUNCIL.

For many happy years the various organizations of the Federation of Trades Council have been working together for the benefit of the working classes and for democracy in this city and other places. The Federation has always been a leader in the advancement of the working man and his rights and it has never been afraid to stand up for what it believed was right. In this way it has helped to make Milwaukee a better place for all its citizens.

We are therefore proud to join with the Federation in congratulating them on their successes and we hope that they will continue to work for the good of all. We believe that only by working together can we achieve our goals and we encourage others to support the Federation as well.

The British Constitution is unchangeably fixed by the amity of the American Convention of 1815. This is a place for the settlement of all disputes between the two nations, and for the recognition of all treaties made since that time. The British Constitution is a constitution of laws and of rights, and is not a constitution of a State or of a nation. The British Constitution is not subject to any revision or modification except by the legislature of the United Kingdom of Great Britain and Ireland, and must be submitted to the approval of the British Crown before it can be enacted.

WHAT DO SOCIALISTS WANT?  

Industry Carried on for Use Instead of Profit.

In another segment of the paper, the socialists are discussing the need for socialist reforms. They believe that the socialist system requires changes in the way society is organized. The socialist system is based on the principle that the state should own and control all means of production and distribution. This would ensure that goods and services are produced and distributed according to the needs of the community, rather than for profit. The socialists advocate for a society where the means of production are owned and controlled by the community, rather than by a small group of wealthy individuals. They believe that this would lead to a more just and equitable society, where everyone has access to the necessities of life.

The author believes that a socialist system, with its emphasis on the equitable distribution of resources, would provide a solution to the problems facing the working class.
