AS TO MUNICIPAL ELECTIONS.

We understand that the victory of the Socialist ticket in the recent election in New York City, which has already been reported, is only a preliminary to the larger victories that will be won in the future. The Socialists have shown that they are capable of organizing a strong movement in the cities, and that they can make use of the opportunities that are presented by the existing political conditions.

The Socialists have been able to make use of the fact that the middle class is becoming more and more discontented with the way in which the government is being conducted. They have been able to appeal to the workers for support, and they have been able to show that the Socialists are the only party that can represent the interests of the workers.

We believe that the Socialists will be able to make even greater progress in the future. They have a strong organization, and they have a clear program that is based on the needs of the workers. We think that the Socialists will be able to win the confidence of the workers, and that they will be able to make a real contribution to the solution of the economic and social problems that are facing the country.

The Socialists have already shown that they are willing to work for the benefit of all the people. They have shown that they are willing to fight for the rights of the workers, and they have shown that they are willing to work for the improvement of the social conditions.
