A FEW WORDS TO WISCONSIN VOTERS.

There is no abnormal field for the introduction of Socialistic principles in Wisconsin and the time is now ripe for action. The welfare of the party in Milwaukoo is secondary to the welfare of the working people and will be the real test of its efficiency and of the strength of its organization. If the working people do not respond to the call of the party, they will not have the strength to carry forward the work of reform and social reform.

The Milwaukee Sit-Down strike that is now in progress is a vital test of the strength of the party and the loyalty of the working people to the ideals of Socialism. The strike is the result of the failure of the capitalist class to meet the demands of the working people for a living wage, a shorter working day, and better working conditions.

The working people of Wisconsin are invited to participate in the strike and to support the Milwaukee Sit-Down strike by a demonstration in the city of Milwaukee on Saturday, July 19, 1902.

A CALL TO ACTION.

The people of Milwaukee are invited to attend a rally to be held in the Milwaukee Arena on Saturday, July 19, 1902, to discuss the strike and to support the Milwaukee Sit-Down strike.
