MORE FACTS ABOUT THE ANTHRACITE COAL STRIKE.

THE PROPHETS OF THE COAL TROUBLE.

But the coal miners of the anthracite fields are not the only workers who have a hard time. The iron miners of the western United States are also in a bad way. They are working under very difficult conditions, and they are paid very low wages. Many of them have been unemployed for months, and they are living in poverty. The coal miners of the anthracite fields have a lot of money in their pockets, and they are working with a lot of power. But the iron miners of the western United States have very little money, and they are working with very little power. They are in a bad way, and they need help.
