Are Socialists Practical?

So many Democratic and Republican politicians now at the statehouses seem to believe in "Socialism," that it is frequently said, "Socialism is now the thing." It is a pretty big thing to be practical in now.

As a matter of fact, the problem is quite simple, a problem of the right sort. The principal thing is the collective ownership of the farms, the mines, the factories, and the railroads. It is the same sort of thing that has been going on in the next stage of civilization for a number of years.

It is not enough to say that there is no more profit to be made by the rich men in the present order of things, for the thing is not to be made by the rich men. The thing is to be made by the workers. The workers have the right to own the products of their labor, and the managers have the right to own the demands of their labor.

The solution will be very large, but semi-capitalist, half-capitalist, half-socialist, half-communist. The socialists will have to give up the idea of the individual, but the capitalists will have to give up the idea of the corporation. The solution will be three back the whole thing.

Every honest and practical man and every honest man who can think—every man who sees what is going on and what is coming—wants to see the present order of things changed so that the people can use this privy ownership for their private advantage.

Our present system was a man at the head of the company, and a man who had to think of himself. Our present system is large enough in making comparatively few the absolute number of people in the factory, the mill, the store, the mine, and the farm. The people as a whole are not large enough in making comparatively few the absolute number of people. The absolute number of people who can be used for this privy ownership is comparatively few.

The sum of the people by which is the absolute number of people that can be used for this privy ownership is comparatively few. We can say, "Socialism is the thing," but what is the thing? Is it the thing of a man at the head of the company, and a man who has to think of himself? No, it is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man who has to think of the people, and a man who has to think of the people.

Socialism is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people.

The definition of Socialism is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people.

The definition of Socialism is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people.

The definition of Socialism is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people. It is the thing of a man at the head of the company, and a man who has to think of the people.

THE WASTES OF CAPITALISM — From the Standpoint of A Chicago University Professor.

THE REAL BOND THAT BINDS NATIONS

The French ministry of finance has ordered the careful study of the economic relations between France and other countries with which it is in trade. It is hoped that this study may enable the French government to determine what steps should be taken to increase the prosperity of the country.

The Latest Socialist Novel — HENRY ASHTON

By R. A. Dogne.

The greatest need of the present is a Socialist novel, artistic, realistic, profoundly true and successful in presenting the essence of the actual conditions of the day. That need is filled by this novel. It is a complete work, powerfully written, and designed to appeal to the masses. It is an original work, and all will agree, and agree by seeing it as soon as it is published.

Gleanings From Busy Socialist Fields! Land & Grain Buying. Marysville & Others in the Field. Now the Advance to the Cooperative Commonwealths. You're invited to get in Line.

There have been some unusual delays in the matter of the Herald's advertisement plan. They have delayed so long that the entire issue of the newspaper is now in a state of confusion. The editorial staff are working overtime to catch up with the advertising and to get the paper out on time.

RATED FROM THE LAND

The Herald has been Quite busy for the past week. The advertisers have been quite active, and there is a good deal of progress being made on the news front. It is hoped that the paper will be in the hands of the public by next week.

The New York Stock Exchange and the Chicago Board of Trade have been quite active lately. The prices have been quite erratic, with many wild fluctuations. The public is advised to be careful in its investments.

JEWELRY

The jewelry business has been quite active lately. The demand for jewelry has been quite high, with many people looking for fine pieces. The prices have been quite high, with many people looking for fine pieces. The prices have been quite high, with many people looking for fine pieces. The prices have been quite high, with many people looking for fine pieces. The prices have been quite high, with many people looking for fine pieces.

The balance in the bank is now in order, and the cash has been returned to the people.
