WHOLE NO. 243.

Why Single Taxers Should be Socialists.

BY Carl B. Thompson, M. A.

"Henry George saw the evolution of society towards Socialism and predicted its coming."

THE DEMOCRATIC PARTY is holding single taxers so secret as if they were suspected... has no member as the slightest indication of offering them anything. The radical candidates are in every way a body separate and distinct from the Democratic party's vote of its own membership.

HAMMER: Yet George, a fellow workers, by your writings.

Henry George was the socialist of the century. He is the one to copy, and the one to follow. He was the greatest of all the socialists. He was the one who saw the evolution of society towards Socialism and predicted its coming.

Henry George was the great socialist of the century. He saw the evolution of society towards Socialism and predicted its coming. He was the one to copy and the one to follow. He was the greatest of all the socialists. He was the one who saw the evolution of society towards Socialism and predicted its coming.

NOW THINGS ARE GETTING WARM!

A special dispatch from Washington to the Quarterly of Social Democratic Heralds.

The Republican national convention, through its chairman, Senator Sherman, has averted a crisis. The division between the adherents of Mr. Cleveland and those of Mr. McKinley has somewhat lessened. The convention is expected to adjourn tomorrow night. The Republican platform is expected to contain a resolution in favor of State and Nationalization of Railroads. The proposed platform will not be reported in detail until after the vote of the convention.

Mason, of New York, has been appointed as an agent for the sale of Republican bonds. He will make a tour of the country, speaking to the people on the great issues of the day. The Republican platform is expected to contain a resolution in favor of State and Nationalization of Railroads. The proposed platform will not be reported in detail until after the vote of the convention.

CIVILIZATION CANNOT BE BUILT ON A FALSE SOCIAL PEACE—Dr. Herron Writes of the Actual Problem.

As we have already said in the social church is a wide and a terrible task. But, if we are to have a real peace, and if we are to have a real civilization, we must have a real church. And, if we are to have a church, we must have a social church. The social church is the church that is interested in the social conditions of the world. It is the church that is interested in the social problems of the world. It is the church that is interested in the social life of the world. It is the church that is interested in the social progress of the world.

Now, we come to the question of how we can achieve this. How can we achieve this? One way is by the establishment of a social church. A social church is a church that is interested in the social life of the world. It is a church that is interested in the social problems of the world. It is a church that is interested in the social progress of the world.

This is the way that we can achieve this. And this is the way that we can achieve a real peace. We can achieve this by the establishment of a social church. And this is the way that we can achieve a real civilization. We can achieve this by the establishment of a social church.
