THE EXPLOITATION OF THE WORKERS.

The idea of being exploited more and more and that our civilization is in a constant state of change is very much to the fore these days. And we must always remember that the more the workers are exploited, the more the capitalists are getting rich. And the more rich the capitalists get, the more the workers will be exploited. And the more the workers are exploited, the more the capitalists will be rich. And so it goes on and on...

One of the main reasons for this is that the capitalists have power and control over the workers. They can exploit them and get away with it. And this is why we need a socialist society where the workers are in control and the capitalists are not. Only then can we have a society where the workers are not exploited and the capitalists are not gettin...

OF CHANGE HAS COME OVER CAPITALISM'S DREAMS!

The influence of Socialism, this year, on the American labor movement has been

Draft notices that are largely directed to Socialism and which have the clear intention of putting the capitalist system in a more revolutionary at least for the time being.

The old style of tactics that held the individual plaintiff in bond, and which is the method of the old school of Socialists, has been replaced by a new and broader approach, especially in regard to the larger social view of labor's rights, that has been

example. Many of these new school officials, however, are already in the process of organizing new unions to meet the needs of the times. This is

with the realization that the capitalist system itself is not the cause of the capitalist's distress. And under Socialism the influence of the capitalist's distress lies in the hands of the workers themselves.

The Socialists are not afraid to face the capitalist's troubles. Disorder, such as the capitalist's distress, is a natural consequence of the capitalist system. If the capitalist system itself is not the cause of the capitalist's distress, then the Socialists, as a voice of the workers, must be prepared to face the consequences of the capitalist system itself.

GLEANINGS FROM BUSY SOCIALISTIC FIELDS!

Good Order Being Observed by Our Hands in the Field. How the Advance to the Cooperative Commonwealth Program is being carried out in Farming.

WILLING WORKERS WANTED!

One of the best ways to meet the problem of the day is to encourage the development of the cooperative commonwealth. The idea of this movement is to organize the labor of the nation into a great cooperative commonwealth, which will provide both the means of production and the means of distribution. This will enable the working class to control the means of production and to distribute the fruits of their labor fairly.

Read "Socialism and the Farmer" by Karl Marx. It is an excellent introduction to the cooperative commonwealth movement.

H. D. W., Portland, Me.

Says: "The cooperative commonwealth is the only solution to the problem of the day. It will provide both the means of production and the means of distribution. The working class will be able to control the means of production and to distribute the fruits of their labor fairly."
