THE TOBACCO TRUST ON ITS TRAVELS.

A Berlin correspondent writes that the tobacco trust and cigar dealers of that place are in fear and turmoil of the American trust—the American Tobacco Company—which is now menacing them by the same methods with which it worked its way over here.

In the first place, it has already purchased a large portion of the cigar manufacturers of this city, and in the second place, it is making ready to purchase the remaining dealers. If it should succeed in accomplishing this it will be able to control the market and make a monopoly.

The American trust has already begun to make itself felt in the cigar market. It has already contracted for the purchase of a large portion of the cigars manufactured here, and it is now in the process of purchasing the remaining dealers.

But the American trust was not the only one to join the fray. The English trust also entered the market. The English trust has already contracted for the purchase of a large portion of the cigars manufactured here, and it is now in the process of purchasing the remaining dealers.

THE LIGHT IS BREAKING! A Notable Article on "Christianity and Socialism" in the Leading Journal of the Methodist Church.

In the article, the author defends the compatibility of Christianity and Socialism, arguing that both are based on the principle of love and service to others. The author cites examples from the life of Jesus and from the history of the Methodist Church to support this view.

The author concludes by emphasizing the importance of understanding and accepting the message of Socialism as an expression of the teachings of Jesus. He calls on all Christians to embrace the principles of Socialism as a way of living a more just and compassionate life.

The False Lights of Conwall—John Spargo.

Discerning the light of the man in the image of the lighter of our laborers, the lights of our laborers, the lights of the light of the man who sees no light at all. The lights of the man who sees no light at all. The lights of the man who sees no light at all. The lights of the man who sees no light at all. The lights of the man who sees no light at all. The lights of the man who sees no light at all. The lights of the man who sees no light at all.
