The MILITARY DESPOTISM COMING!

Next Week: Special Article on "The Need of Millions!"

How to save the country! The hard fact, that we are now facing the greatest and most serious crisis we have ever encountered in all our history. The truth is that the country is in a state of utter collapse. The economy is in disarray, the government is paralyzed, and the people are in despair. The only hope for our survival is to take immediate action to save the country.

Next Week: The Single Tax Question again, by request.

The case of the single tax is not new. It has been discussed for many years, but the time has come for it to be seriously considered. The single tax is a simple and effective solution to the problem of taxation. It is based on the principle that all property should be taxed according to its value, rather than according to its use. This would provide a stable and fair system of taxation that would benefit all Americans.

It Comes from Germany.

THAT THE GENERAL council of the Catholic Church in America against Socialism and Communism is to inquire into the necessity of establishing an army to defend the Church against the Communists. It is to be noted that the Church has been under attack by the Communists for some time, and this action is in response to those attacks. The council is to be composed of the bishops of the United States, and the purpose is to study the problem of the military forces of the Church and to make recommendations to the Pope on the matter.

The military forces of the Church would be used to defend the Church against the Communists, and to protect the Church and its teachings. This action is a response to the fact that the Church has been under attack by the Communists for some time, and that the Church needs to take action to protect itself.

Developments in Germany.

The situation in Germany is rapidly deteriorating. The government is becoming more repressive, and the people are becoming more disillusioned. The situation is likely to become worse in the near future.

The United States and Germany.

The United States has been providing military aid to Germany, in order to help the country defend itself against the Communists. However, the situation in Germany is rapidly deteriorating, and it is likely that the United States will have to increase its aid in order to help Germany.

Dishonesty of the London Times.

The London Times was once a great periodical. It may have been the best. The London Times was the friend of the poor, the protector of the weak. It was the champion of liberty and justice. It was the voice of reason and wisdom. It was the beacon of hope and progress. But today, the London Times is no more. It is a lying, deceitful, and corrupt newspaper. It is a tool of the rich and powerful, used to suppress the truth and advance the interests of the elite. It is a danger to society.

The Animals and Corporation

It is a news item in the London Times that the Australian government is planning to build a new zoo. The zoo will be one of the largest in the world, and will house thousands of animals. The government claims that the zoo will be a "wonderful" place to visit, and that it will help to "educate" the public about the importance of protecting wildlife. But is this really true? Is the London Times being honest, or is it just another example of corporate greed?

IMPOSSIBLE TO EXPLAIN SUCCESS.

In writing a satirical article on the success of the London Times, the author notes that the newspaper has managed to "score with" the public. The author suggests that this is not due to the quality of the paper, but rather to the "ploy" of using "dirt" to "sell" the paper. The author concludes that the London Times is "impossible to explain in terms of success".

Books of Scientific Socialism.

"The right to free speech is the foundation of all freedom. It is a right that must be protected and defended at all costs. It is a right that should not be taken for granted. It is a right that we must all work to defend."
