Debs Discusses the Parry-sites. And Writes Entertainingly and Intrudingly of Class Conscionability.

It is necessary, to say that J. T. Hillier lives at Bethlehem and that he is the Third Vice President of the Citizen's Industrial Association. According as Hillier has "inexplicable motions of the right hand", and "shakes his head upon the public policy which must be cut out or it will work the rest of the country.

Hillier is in constant hatred of the rich.

A story is told of a rich man who had been shot in the head.

He was in the state of a man to live.

"How are you?" asked one of the men.

"How am I?" said the rich man, "I am dead!"

The story has been repeated many times.

"How are you?"

"I am dead!"

Hillier is in constant hatred of the rich.

In the recent meeting of capitalists at Chicago which opened the "Citizens Industrial Association", Hillier has made his play for the people. "We are the people," said Hillier, "and we shall have our day!"

The working class-movement is strong only in proportion as it is conscious of its class-character and is able to control its class-interests.

The class-consciousness is in capitalist society, which the shaving room of Karl Marx revealed so clearly, not only required the socialist philosophy, but supplied the foundation upon which has been built the social movement.

The class-conscious movement, the former saying and the latter saying the word of the people, is the organization of all the people.

"I am dead!"

The working man who wants to be free of the capitalists, to be free of the exploitation, to be free of the employer, to be free to work for himself, must be class-conscious and must be able to control his class-interests.

The working man who wants to be free of the capitalists, to be free of the exploitation, to be free of the employer, to be free to work for himself, must be class-conscious and must be able to control his class-interests.

Every time you have a man declare that he wants to be free of the capitalists, to be free of the exploitation, to be free of the employer, to be free to work for himself, must be class-conscious and must be able to control his class-interests.

The Socialist Party is making the workers of the class-struggle and who does not want to be free of the capitalists, to be free of the exploitation, to be free of the employer, to be free to work for himself, must be class-conscious and must be able to control his class-interests.

Gompers' Friend Hanna's Labor Record.

By Fred. H. McMahon.

I have been appointed by our great labor leader, Mr. Samuel Gompers, to be his special agent for the purpose of investigating the labor conditions in the various states of the Union. I have been given the power to make inquiries and to report to Mr. Gompers on the progress of the labor movement in each state.

In the matter of the strike in Cleveland, where the workers have been on the picket line for several days, I have found the following facts:

The workers have been on strike for several days, and they have been on the picket line for the past week. The strike is due to the fact that the company has refused to recognize the union, and to the fact that the workers have been denied the right to form a union.

The company has been in operation for several years, and has been a leading manufacturer in the city. The workers have been employed by the company for several years, and have formed a union to protect their interests.

I have found that the workers are determined to maintain their union, and to force the company to recognize them.

I have been given the power to make inquiries and to report to Mr. Gompers on the progress of the labor movement in each state.
