WHERE IS THE INCENTIVE TO BE INDUSTRIOUS UNDER CAPITALISM?

The above facts are admittedly confined to the United States and Russia, and to the highly industrialized phase of the world, but they are indicative of the general principle which is the heart of the problem of the world to-day. It is true that there are workers who are owners of capital, but these are in the minority, and the incentive to work is very different. The majority of workers are hired laborers, and the incentive to work is largely determined by the conditions of the labor market. The fact that some workers are able to own their own means of production does not mean that all workers are able to do so. The majority of workers are still at the mercy of the capitalist class, and the incentive to work is largely determined by the need to earn a living.
Chances of the Class Struggle

An Important Decision

The state supreme court has decided that the right to go on strike is as
important to the working man as is the right to bear arms. The strike
which closed the state of the Delaware Valley last week is the

result of a decision by the state supreme court. The strike was

caused by the closing of the state's steel mills. The steel town of

Steelville, where the mills are located, is the scene of a battle be-

tween the workers and the owners of the mills. The owners have

refused to give the workers a raise, and the workers have

refused to work. The state supreme court has upheld the right of

the workers to strike, and the mills have been closed.

JOY IN THE CAPITALIST CAMP.

MIDST THE CRIES OF WORKERS OUT OF WORK AND IN DISTRESS RISES THE LAUGHTER OF THE LABOR-DOERS.

THE GOOD STORY.

MARK HANNA (to variant readers): "But that is not the best of it! Mitchell had no sooner seen me, than the lights were extinguished. "I am Hannn a not only Hannn a not only of the party, but this is a private ridiculous statement." I tell you loud and clear, Mr. Mitchell, you are not Hannn a not only of the party, but this is a private ridiculous statement."

HALF HOURS IN THE HERALD SANCTUM.

Leavenworth, Ky., Dec. 5.—Editor and publisher of the Leavenworth Times, the chief organ of the Populist party in Kansas, has been in the capital for about a month and no, but little has appeared in the financial press relative to the proposed amendment to our National Bank law. This is not the fault of the editor of the Times, but due to the fact that he has not had any opportunity to call the attention of the people to this measure. In fact, he has been too busy with his other work to give it the attention it deserves.

The act of forcing a loan

Little dark liquor alcohol.

The editorial says:

"The National Bank Amendment is not a good thing. It will not help the people."

The Populists have been working for this amendment for a long time, and they are going to keep on working for it. They are going to keep on working for it until the people understand it and vote for it.
