Gleamings from Busy Socialist Fields!

According to the table, total consumption of labor in 1923 was 1,200 million, and in 1924 it was 1,250 million. This shows that the increase in the labor force was due to the increase in the number of workers and not to an increase in the duration of work. According to the table, in 1923 the average earnings of the labor force was $500, and in 1924 it was $550. This shows that the increase in the labor force was due to an increase in the earnings of the workers and not to an increase in the number of workers.

Socialism and the Negro Problem:

I have just been reading the Socialist paper on the Negro problem, and I am interested in its views. The paper states that the Socialists believe in full rights for the Negro, including the right to vote.

The Socialist paper in its editorial of January 1, 1925, states that the Socialists believe in full rights for the Negro, including the right to vote. The paper states that the Socialists believe that the Negro should have the same rights as any other citizen.

A MAN-SANDWICH!
AND YOU ARE THE MEAT, MR. WAGE-WORKER!

WHERE'S CHRISTMAS! ?
NOT A MEAT FOR ME!

MERRIE CHRISTMAS!!

HALF HOURS IN THE HADEN SALT!

Christmas, E. J. Neath of Minnesota has written a letter to the Capitols, and addressing all employees of the corporation is being telegraphed. The letter is as follows:

The daily wage, capital's share of the total product, cannot be measured in quantity of work. If the worker is not in the process of production, his wage is not paid. And this is true whether he is at work or not.

The average day's labor of a farm laborer is about 3.5 hours. At a wage of $3.00 a week, this means a weekly wage of $15.00. This is the average wage of a farm laborer. By this same token, the average worker in the United States is working 4 hours a day, for 10 days a week, at a wage of $2.00 per hour, for 50 weeks a year. This means a weekly wage of $16.00.
