The Wisconsin Campaign.

Socialism is the child of capital and labor, born in the struggle of freedom and despair. It is the restlessness of the world, the voice of the generations. The world is so hard that it is the average man who will have to change it. It is the average man who is to break the power of the press and the moneyed press that have controlled the power of the world. It is the average man who is to change the system of the world. It is the average man who is to make the world a better place for the world.

In a great city the greatest inconveniences to business men and tradesmen are created by the congestion of the streets and the noise and commotion of the sidewalks. It would be better for the city to have an order of business men and tradesmen to meet and discuss these questions with the view of getting them into proper working order.
