Onward to Victory at the Polls!

Mississippi had the battle, only for the preservation of the negroes and Democracy of its white people. That was the idea behind the negro and the situation of the negro. Today the idea is different. Today the idea is to preserve the suburban and the city and the business community.

The Social Democratic Party is the party of the working class, of the labor movement, of the masses of the people. It is the party of the workers and the farmers. It is the party of the people who have been suffering under the rule of the capitalist class. It is the party of the people who have been oppressed by the wealthy classes.

THE FATE OF THE SMALL BUSINESS MAN.

AN APPEAL TO THE HEART AND THE HEAD.

What business man in Milwaukee but realizes that business, as Mr. Berger aptly puts it, is a heart

business and a head business?

It is almost universally, and it is always to be both.

A man is in business to make money, but money is not his business. He is in business because he wants to be.

The man in the street has an idea that business is a money-making game, but he is almost always mistaken.

The man who is in business is not the man who is making money. He is the man who is making his livelihood.

How is his livelihood made? He is working for the satisfaction of his customers, but the customer is not always satisfied.

The customer is satisfied because he is satisfied with the product.

The man who is in business is not the man who is making money. He is the man who is making his livelihood.

How is his livelihood made? He is working for the satisfaction of his customers, but the customer is not always satisfied.

The customer is satisfied because he is satisfied with the product.

The man who is in business is not the man who is making money. He is the man who is making his livelihood.

How is his livelihood made? He is working for the satisfaction of his customers, but the customer is not always satisfied.

THE MILWAUKEE ELECTION IS PRACTICALLY CONCEDED TO THE SOCIALISTS!

WHAT INTERNATIONAL SOCIALISM DEMANDS:

1. Abolition of all private property in land.
2. Abolition of all private property in the means of production.
3. Abolition of the Police, Army, and Courts.
4. Distribution of the land and the means of production among the working class as a whole.
5. Nationalization of the whole of the productive industries.
6. State control of all commerce and all communications.
7. State ownership of all land.
8. State ownership of all means of transportation.
9. State ownership of all banks.
10. A universal system of education.

WHAT THE VOTER WILL SWALLOW?

Socialism is not a new invention. It has been the result of the labor movement since the dawn of history. The struggle between capital and labor, between the proletariat and the bourgeoisie, has been going on for centuries. The working class have been demanding socialism for over a century. The Socialists have been working for the establishment of a society in which the workers would control the means of production and distribution. The Socialists have been advocating the abolition of private property in land and the means of production, the abolition of the Police, Army, and Courts, the distribution of the land and the means of production among the working class as a whole, the nationalization of the whole of the productive industries, state control of all commerce and all communications, state ownership of all land, state ownership of all means of transportation, state ownership of all banks, and a universal system of education.

THE RAPE OF MILWAUKEE BY CAPITALISM.

Two incisive arguments advanced by opponents of Socialism are: (a) Socialism will not be able to carry a movement for the change it demands; and (b) Socialism provides no machinery for the change it demands. As to the first proposition, we claim that the capitalist class is capable of raising from an overdose of wisdom and that the working class is capable of raising from an overdose of ignorance. If the Socialists are to the working class what the Socialists are to the working class, we have no doubt that the working class is capable of carrying a movement for the change it demands. As to the second proposition, we claim that the Socialist movement is capable of raising from an overdose of ignorance and that the working class is capable of raising from an overdose of wisdom. If the Socialists are to the working class what the Socialists are to the working class, we see no reason to doubt that the Socialist movement is capable of carrying a movement for the change it demands.

WHY THERE ARE SO MANY DIVORCES UNDER CAPITALISM.

The principal of the principle arguments advanced by opponents of Socialism is that Socialism is not feasible. We believe that the working class is capable of raising from an overdose of ignorance and that the working class is capable of raising from an overdose of wisdom. If the Socialists are to the working class what the Socialists are to the working class, we have no doubt that the working class is capable of carrying a movement for the change it demands. As to the second proposition, we claim that the Socialist movement is capable of raising from an overdose of ignorance and that the working class is capable of raising from an overdose of wisdom. If the Socialists are to the working class what the Socialists are to the working class, we see no reason to doubt that the Socialist movement is capable of carrying a movement for the change it demands.

A NEW POWER FOR SOCIALISM.

The "Workingman's Clocks" is the same given to a new method for the working class. This organization was started about 1870 by a group of workers who were tired of working long hours for low wages. They decided to form a cooperative society to buy and sell goods at cost price. The society was called the "Workingman's Clocks" because they wanted to give the workers a way to save money and provide for their families. The society was successful and grew to include many other cooperatives.

THE ASPHALT HOLD-UP.

The year 1902 was the banner year for the supply of asphalt. The demand for asphalt had been greatest during the past two years, and the supply of asphalt had been greatest during the past two years. THE APEAL OF THE SOCIALISTS.

Socialism is a system of ideas and principles that seeks to create a society in which the means of production and distribution are owned and controlled by the working class. The Socialists believe that the working class should control the means of production and distribution in order to create a society in which the working class is not exploited and oppressed by the bourgeoisie. TO KEEP THE WORKINGMEN FROM VOTING FOR BERGER!

All of the leaders of the political party have been working full time on election day. For weeks they have been at it, doing all that they could to make it hard for the average man to vote. The politicians and their handlers have made it a point of pride.

However, the Municipal Workingmen's Union has been watching the situation closely, and they have noticed that the politicians' influence is waning.

The platform of the two old parties is the same, and there is nothing new, however, so long as they are in power, they have the same policies. This is but a repetition of the past election, when the politicians tried to hoodwink the people.

However, the Municipal Workingmen's Union is determined to bring about a change. They have decided to work on the voters' minds and to advise them of the facts.

The politicians' claims are based on lies and half-truths. They have no knowledge of the facts, and they are not qualified to do what they are attempting.

The Municipal Workingmen's Union is determined to bring about a change, and they will not rest until they have succeeded.
