WERE THE COAL MINERS HEADED OFF?

A Prophetic Dispatch Fulfilled at the Last Minute - Operators and Labor Leaders Confuse to Force Reduction.

Now that the threatened walk-out of the miners of a large section of Pennsylvania was averted, the operators in the district have been looking for an explanation of the change of front. The explanation is said to have been given on Saturday, and it is believed that if it is kept secret, it will open the way for a full settlement.

The operators say that the miners were headed off by promises of better wages and shorter hours. But the miners say that they were not headed off, but were forced to accept the terms that were offered them.

The miners say that they were forced to accept the terms that were offered them. They say that they were not headed off, but were forced to accept the terms that were offered them.

Sociable-Democratic Herald

Social-Democratic Herald is the official publication of the Socialist Labor Party of America. It was founded in 1897 and continued to be published until 1912. The paper was known for its radical socialist and labor-oriented content, and it played an important role in the history of the labor movement in the United States. The paper was closed during the Red Scare and later revived under different names and owners. However, the influence of the paper and its ideas lingered on in the labor movement and socialist organizations. The paper's legacy continues to be studied and remembered by historians and activists interested in the history of socialism and labor movements.

Theitters From Marcellus W4it.

We regret that the following letter, although we believe that it is from a loyal friend of the W4itter, does not show the same spirit of understanding as is shown by the majority of the W4itters.

To the Editor of the Milwaukee W4itter:

I have just read the last issue of the Milwaukee W4itter and was greatly disappointed to find that the usual high standard of your publication has been lowered by the inclusion of a letter from a person who seems to be striving to create a feeling of hatred and division among the W4itter. It is regrettable that such a letter should appear in your pages, as it does not represent the true spirit of the W4itter.

I hope that you will take steps to ensure that such a letter is not published in future issues.

Sincerely yours,
