What International Socialism Demands:

- Collective ownership of all producing industries
- Decentralized control of all producing industries
- Prohibition of the use of labor and compulsory labor
- Nationalization of all land

What the menace of capitalism is coming to mean. It is coming to mean the destruction of the livelihood of the working class. It is coming to mean the destruction of the future of the working class. It is coming to mean the destruction of the future of the world.

THE DANGERS OF PUBLIC SERVICE:

We Americans poke about the policies of internationalism, but after all, the policies of internationalism are the policies of the people. It is the people who are the masters of the world. It is the people who are the masters of the future. It is the people who are the masters of the world.
