The National Socialist Platform for 1904.

(As Adopted at Chicago, May 3, 1904.)

We, the Socialist party, in convention assembled, unite our appeal to the American people as the laborer and employer, to the labor of all classes as the capitalist, and to the capital of all classes as the Socialist, in the common aim of abolishing the capitalist system of production.

We advocate the establishment of a Socialist commonwealth, wherein there shall be no class distinction, no privileges or restrictions, but the free and equal enjoyment of all the blessings of life for the whole people.

We declare that the abolition of the capitalist system cannot be accomplished by political means, but only by the organized and concerted action of the laboring classes, who, by united effort, shall overthrow the existing order of things, and establish a new order of society, in which the laboring classes shall be the masters, and the capitalist system shall be abolished.

We believe that the abolition of the capitalist system is a necessary condition of the welfare and prosperity of the laboring classes, and that it is the duty of all who are interested in the welfare of the laboring classes to work for the abolition of the capitalist system.

In conclusion, we wish to say that we are glad to see the progress that has been made in the production of the Social Democratic Herald during the past year, and we hope that the work will continue to be carried on with the same zeal and energy that has characterized it in the past.

By Allan L. Benson.
