DEBS ON COLORADO!!

Even the Capitalist Press is Going to You Over the Colorado

L.A. day is asked for.

A four-year law passed since the strikers were pacified in Colorado is now under attack by some of the leading firms of that State. It is called the "Berger Amendment," and its purpose is to wipe out the Power of the Black Hand--it is to be abolished.

The "Land of the Oppressed!"

The "Land of the Oppressed!"

The Power to Kill!

The Power to Kill!

Even the Capitalist Press goes over the Colorado.

Even the Capitalist Press is Going to You Over the Colorado.

The "Land of the Oppressed!"

The "Land of the Oppressed!"

The Power to Kill!

The Power to Kill!

And now for action! We, the Socialists of America, should appeal to the workers of the world to help us in our fight.

The National Committee of the Socialist party, it is said, will send delegates to the first Black Hand meeting in Montana to take part in the proceedings of the conference.

Let the Socialists rally in every town, city and county. Let them promise to hold meetings in every town and city and county where the meeting is held. Let those same delegates be selected to represent the Socialist party at the Black Hand meetings in Colorado.

Let the delegates be instructed to demand that the Black Hand be punished and that the Government take steps to prevent any further meetings of Black Hand organizations.

And then the blacking out can be completed with force and firmness. If the Socialist party is not strong enough to handle the situation, it is better to have it handled by others.

Socialism is the only hope for the working class.

And then the blacking out can be completed with force and firmness. If the Socialist party is not strong enough to handle the situation, it is better to have it handled by others.

Socialism is the only hope for the working class.

Socialism is the only hope for the working class.

And then the blacking out can be completed with force and firmness. If the Socialist party is not strong enough to handle the situation, it is better to have it handled by others.
SOCIALISM MADE PLAIN.  

WHY THE FEW ARE RICH AND THE MANY POOR.  

By Allan L. Benson.

NOTE: Although these features are copyrighted, the Editor reserves the right to republish them in whole or in part.  

OTHER REMARKS OF THE EDITOR WOULD BE WELCOME.

But before taking up the question of socialism, about which many things, it may be well to mention certain errors, with a view to avoiding as far as possible any misunderstanding.

First, it must be understood that there are a few thousand of us of very many kinds, who do not wish to see socialism adopted in any way, and that we are not at all mistaken in our views.

Second, it is not true that all socialists are communists, or that there is any such thing as a "socialist." The term includes many different schools of thought, and it is used to refer to persons who hold a variety of beliefs.

Third, the socialists do not regard the production of a few individuals as something to be condemned.

This book will be divided into several parts, and each part will be devoted to a particular subject. The first part is entitled "What Is Socialism?" and the second part is entitled "How Can Socialism Be Made Practical?"

The first part of the book will be devoted to the question of socialism and its relation to the production of wealth. The second part will be devoted to the question of how socialism can be made practical.

The third part of the book will be devoted to the question of the distribution of wealth. The fourth part will be devoted to the question of the education of the people. The fifth part will be devoted to the question of the role of government in socialism.

The sixth part of the book will be devoted to the question of the future of socialism. The seventh part will be devoted to the question of the effects of socialism on the economy.

The eighth part of the book will be devoted to the question of the effects of socialism on society. The ninth part will be devoted to the question of the effects of socialism on the family. The tenth part will be devoted to the question of the effects of socialism on the individual.

The eleventh part of the book will be devoted to the question of the effects of socialism on the church. The twelfth part will be devoted to the question of the effects of socialism on the state. The thirteenth part will be devoted to the question of the effects of socialism on the world.

The fourteenth part of the book will be devoted to the question of the effects of socialism on the universe. The fifteenth part will be devoted to the question of the effects of socialism on the future.
Gleanings from Busy Socialist Fields!

NOTE: In some cases the organization is known as the "Socialist Party," in others as the "Social Democratic party." Where the term "Socialist" is used it does not refer to trade union leaders, but to the local bodies of the party in any place.

**DAHA**

Daha has been having big meetings recently. The last one was held at a hall in New York.

**THE PROLETARIAN**

Capitalist Desecration of the Flag in Colorado.

But the Woman's Goo-Goo Flag Worship Society saves his hysteric for other, and less Capitalistic Offenders:

The National Socialist Platform for 1904.

The Socialist party, in convention assembled, make our appeal to the American people as the defender and preserver of the principles of true democracy and Socialism, and in the hope of bringing to a realization of the aims and aspirations of the human race.

The Socialist party, therefore, presents the following platform for consideration and approval by the American people in the forthcoming election of 1904.

The Socialist party believes in the social ownership and operation of all the means of production, distribution, and exchange, and in the equalitarian distribution of the social product of labor.

The Socialist party believes in the universal franchise and the right of all adult citizens to vote, and in the free organization and action of labor.

The Socialist party believes in the right of the worker to own the means of production and distribution, and in the right of the worker to control the same.

The Socialist party believes in the right of the worker to control the means of production and distribution, and in the right of the worker to control the same.

The Socialist party believes in the right of the worker to control the means of production and distribution, and in the right of the worker to control the same.

The Socialist party believes in the right of the worker to control the means of production and distribution, and in the right of the worker to control the same.

The Socialist party believes in the right of the worker to control the means of production and distribution, and in the right of the worker to control the same.
The Milwaukee Test of Socialism

The elections in Wisconsin are the first in the country in which the Socialist candidates are given a real chance of victory. The two candidates for the United States Senate, Mr. Robert M. La Follette and Mr. Francis E. Amasa Walker, are both Socialists. Mr. La Follette is the candidate of the Wisconsin Socialist party, and Mr. Walker is the candidate of the Wisconsin party of the Nationalist Socialists, a group that has been formed to oppose the policies of the Republican party.

The Socialist candidates are expected to do well in the election, and it is believed that they will carry the state. The Socialists have been working hard to build up a strong organization in Wisconsin, and they have been successful in gaining a large following among the working people of the state.

The Socialist party is opposed to the policies of the Republican party, which it considers to be too conservative. The Socialists favor a program of social and economic reform, and they are especially interested in questions of labor, housing, and education.

The Socialist party is also opposed to the policies of the Democratic party, which it considers to be too progressive. The Socialists believe that the Democratic party is too much under the control of the big business interests, and they want to see a more active role for the government in regulating the economy.

The Socialist party is a member of the International Socialists, a group of socialist parties from around the world. The International Socialists are united in their belief that the working people of the world must unite to overthrow the现存的资本主义 system and establish a socialist society.

The Socialist party is also a member of the World Federation of Socialist Parties, a group of socialist parties from around the world. The World Federation of Socialist Parties is united in its belief that the working people of the world must unite to overthrow the现存的资本主义系统和建立一个社会主义社会。

We have received a large number of requests for the offer of guaranteed watches free to every one buying $10.00, or over, during the next two days. This is a great bargain event of great importance.
