BEARERS OF FALSE WITNESS

Victor L. Berger Sharply Replies to Clerical Slanders

SINCE the Bosnian Catholic clergy has now resolved on war with the Serbian administration, and has given the signal for the first round, the adherents of the Catholic Church in the United States who are in sympathy with the Austrian emperor and his policy, are busy in trying to create an impression of sympathy with the war. They are working hand in glove with the Press and the government institutions to build up a public opinion favorable to the Austrians. They are accusing the Serbs of all sorts of atrocities. They are trying to make the American public believe that the Serbs are the aggressors, and that the Austrians are the victims. They are trying to create a feeling of sympathy for the Austrians and antipathy for the Serbs.

These are the tactics employed by the Catholic clergy in the United States. They are working hand in glove with the government institutions and the Press to build up a public opinion favorable to the Austrians. They are accusing the Serbs of all sorts of atrocities. They are trying to make the American public believe that the Serbs are the aggressors, and that the Austrians are the victims. Is Russia to have a Revolution?

In Petersburg, the appeals in favor of a real democratization of the Russian state are gaining ground. The workers and the students are demanding the right to organize and to strike. The peasants are demanding the right to elect their own representatives. The middle class is demanding the right to vote. The intellectuals are demanding the right to freedom of thought and of speech. The Russian people are demanding the right to participate in the government.

The situation in Russia is becoming more and more serious. The workers and the students are demanding the right to organize and to strike. The peasants are demanding the right to elect their own representatives. The middle class is demanding the right to vote. The intellectuals are demanding the right to freedom of thought and of speech. The Russian people are demanding the right to participate in the government.

EXCOMMUNICATION OF THE MONARCHY!

The Catholic Church has excommunicated the Russian Tsar. The Tsar has been excommunicated by the Catholic Church. This is a clear indication of the fact that the Catholic Church is not satisfied with the Russian government. The Catholic Church is not satisfied with the Russian government. This is a clear indication of the fact that the Catholic Church is not satisfied with the Russian government.

POWERS OF THE PRESS

The power of the press has been increased and taken under control of the Orthodox church. This is a clear indication of the fact that the Orthodox church is not satisfied with the power of the press. WHY FOSTER COMBUSTIBLES?

The Big Four

F. D. Kiple, founder of the Combustible Gas Co., and now President of the American Gas Association, has written a book on the subject of gas production and distribution, called "The Big Four: A History of the Gas Industry." The book was published in 1923 and has since become a classic in the field of gas industry history. It has been reprinted many times and is widely used as a reference work in the gas industry. The book covers the history of the gas industry from its early beginnings to the present day, and provides a detailed account of the development of the industry in the United States. It is an excellent resource for anyone interested in the history of the gas industry, and is highly recommended for anyone who wants to understand the workings of the gas industry today. The book is available in many libraries, and can also be purchased online through various retailers. It is well worth reading for anyone who is interested in the history of the gas industry and its role in the economy.
MYRON REED'S SERMON ON TRAMPS

"Blessed is he that receiveth water into the vessels of his body, and maketh the vessels full: for the price of the water is enough for all, and thou art the living vessel," said the preacher. "Blessed is he that receiveth water into the vessels of his body, and maketh the vessels full:" 1 Cor. 9:14.

"And when we lay down the broken staff, to the man of God no more shall it be given; neither shall their work be profitable unto you." 1 Kings 22:19. 

"Water is the best fertiliser for the crops of the earth." 

As the routine of a preacher is to travel from town to town, he is often subjected to the vicissitudes of travel. The water is a blessing to the preacher in that he is able to make the vessels of his body full. When we lay down the broken staff, to the man of God no more shall it be given: neither shall their work be profitable unto you. 1 Kings 22:19. 

"And when we lay down the broken staff, to the man of God no more shall it be given; neither shall their work be profitable unto you." 1 Kings 22:19.

"Water is the best fertiliser for the crops of the earth."
