Sociability is the cause of your health and your wealth. Sociability is the cause of your happiness. Sociability is the cause of your wisdom. Sociability is the cause of your strength. Sociability is the cause of your success. Sociability is the cause of your prosperity.

Under Socialism, the individual is no longer a slave. He is free. The individual is no longer a slave. He is a citizen. The individual is no longer a slave. He is a worker. The individual is no longer a slave. He is a member of society. The individual is no longer a slave. He is a person. The individual is no longer a slave. He is a human being.

But One Way to End Graft

By Victor L. Berger

The greatest worry of the Capitalist Press has just now is that the "Dream" called Socialism may be found to work! The Workers of the World will not only gain their bread, but they will also gain their freedom, their democracy, and their socialism. In this way, they will be able to live in peace and harmony, and the world will be a better place for all.

Exposing the Workers

Exposing the Workers

There is a certain class of people who like to think that the world is full of graft and that the Workers are the worst of them all. They believe that the Workers are a threat to society and that they must be controlled at all costs. They believe that the Workers are a danger to the capitalist system and that they must be stopped at all costs.

VI. THE INCREASED PRODUCTIVENESS OF LABOR BY MEANS OF MACHINERY AND WHY THE WORKERS DO NOT GET THE BENEFIT. A SOCIAL SYSTEM THAT HARMES MANKIND.

By CLAYTON J. LAMB, of Dryden, Michigan.

Dear Sir: In the winter of last year I had the pleasure of reading a short, but very able, paper, the read of which is appended hereunto, and which I do not think I need apologize for printing. The author is well known as a man of marked ability, and the paper is well written and thoroughly sound. The subject is one of great importance, and I think it will do much good to point out the defects in our present system of government, and the necessity of a change in order to secure the welfare of its citizens. The paper is a valuable contribution to the discussion of the subject, and I hope it will be widely read and considered.

I am, Sir,
Yours very truly,

Pon for the city of Milwaukee, which is the largest and most important city in the state of Wisconsin, has been referred to the question of building a new city hall. The corporation on this subject has been charged with having spent in excess of $1,000,000 on the building in question. This was the result of a series of meetings where the citizens of the city were called upon to vote on the question of whether or not they should build a new city hall. The city council, on the other hand, is reported to have spent in excess of $300,000 on the question, which they claim is for the benefit of the citizens of the city. The question is now before the city council, which is expected to make a final decision shortly.
