The Milwaukee Grand Jury

By Victor L. Berger

This Milwaukee grand jury is a long way from the grand juries of the days of the Roman law, which took up the time of the free man and one can be sure by its results. But these capital offenses and the grand juries and their mates were such grand juries.

The grand jury investigation, far from following the "good name is better than riches," is better than riches. It is a way of life, and the administration of justice that is done.

The grand jury's work is to be praised. It is a way of life, and the administration of justice that is done.

The grand jury investigation, far from following the "good name is better than riches," is better than riches. It is a way of life, and the administration of justice that is done.

The grand jury's work is to be praised. It is a way of life, and the administration of justice that is done.

The grand jury's work is to be praised. It is a way of life, and the administration of justice that is done.
Rockefeller is Growing

Clay Clark, Wis., June 27—The big skyscraper that the Rockefeller family has been giving so much attention to lately is really making a grand growth and will be of great benefit to the county. The people of the surrounding towns and villages are beginning to notice the rapid development of the place, and are looking forward to the time when it will be completed and ready for occupation.

The skyscraper is on the site of the old Warren House, and is being built by the Rockefeller brothers. It is a five-story building, with a basement and a attic, and is being constructed of the finest materials. The interior is being fitted up with the most modern appliances, and will be ready for occupation early next year.

The completion of the skyscraper will mean a great deal to the community. It will provide employment for many men, and will be a great benefit to the local trade. It is expected that the building will be occupied by the end of the year, and will be a great improvement to the town.
