Wise Words for Workers!

By Eugene V. Debs (In Recent Address)

"Every man who has a brain in his head and a pair of lungs in his chest,

is entitled to a square meal, a bed to sleep in, and the opportunity to

work for a living wage."

The political revolution which is now afoot is, of course, not

entirely a labor movement, although labor is the mainstay of the

revolution. It is a movement of the masses. It is a movement

for peace and a better life for all. It is a movement for the

abolition of slavery and the establishment of a republic for all.

It is a movement for the emancipation of the individual, not

merely for the emancipation of the working class. It is a

movement for the abolition of private property and the

establishment of a commonwealth for all. It is a movement

for the reduction of the workday to eight hours and the

elimination of child labor.

The political revolution is, therefore, not merely a labor

movement, but it is a movement of the masses, and it is a

movement for the abolition of slavery and the establishment

of a republic for all. It is a movement for the emancipation

of the individual, not merely for the emancipation of the

working class. It is a movement for the abolition of private

property and the establishment of a commonwealth for all.

It is a movement for the reduction of the workday to eight

hours and the elimination of child labor.

The political revolution is, therefore, not merely a labor

movement, but it is a movement of the masses, and it is a

movement for the abolition of slavery and the establishment

of a republic for all. It is a movement for the emancipation

of the individual, not merely for the emancipation of the

working class. It is a movement for the abolition of private

property and the establishment of a commonwealth for all.

It is a movement for the reduction of the workday to eight

hours and the elimination of child labor.

The political revolution is, therefore, not merely a labor

movement, but it is a movement of the masses, and it is a

movement for the abolition of slavery and the establishment

of a republic for all. It is a movement for the emancipation

of the individual, not merely for the emancipation of the

working class. It is a movement for the abolition of private

property and the establishment of a commonwealth for all.

It is a movement for the reduction of the workday to eight

hours and the elimination of child labor.

The Simple Cure of the Great White Plague

IT CONSISTS IN SIMPLY GETTING BACK TO Nature.
CURING INDUSTRY THE CONSUMER.

"It is life in the open air, plain food,

good warm clothing, and the

right kind of exercise," said a

physician to a sick man.

"That is what I was doing when

I was well," replied the man.

10 He was a "half boy" at the

time, and was brought up on the

farm, and I asked him what mini-

three years ago, and he said,

"Yes, I am in a much better

condition now."

The doctors keep records of

the temperature of the blood in

their patients, and the tempera-

ture is directly proportional to

the amount of exercise a person

gets. A person who does not

get enough exercise will have a

lower temperature than a person

who does. This is because the

body is not getting the oxygen it

needs to burn fat and produce

energy.

The cure for many diseases

is simply to get more exercise.

The more you exercise, the

healthier you will be. So start

exercising today!

Nouns and Comments.

Professor Bacon of Williams

College has written a book on

the subject of curative exercise.

He states that exercise is the

best thing for the body. It is

not only good for the body,

but it is also good for the

mind.

Bacon recommends a daily

walk of two miles as a good

beginning. He says that this

will help to tone up the body

and make it stronger.

The cure for many diseases

is simply to get more exercise.

The more you exercise, the

healthier you will be. So start

exercising today!
