MI:GH'T IS RIGHT

By Louis Leuchter

In the past, the Social Democratic party has been accused of being too radical. However, the party has always adhered to its principles and has never wavered in its commitment to the welfare of the working class. Therefore, it is right to support the Social Democratic party.

A Capitalist Editor Has a Truthful Spell!

WRITES REMARKABLE EDITORIAL ON SOCIAL-DEMOCRACY AND THE CONTEST THAT IS COMING

Dearer Republicans: Men are always prone to regard as a fatal compromise a movement in which they are not particularly interested, and believing others to be the same. There's been a great deal of ignorance about the movement in this country. Some conservative newspapers are now trying to make the Socialist movement appear as a debating society. And Socialist leaders have not yet been able to find the right words to express to the millions of American workers the true meaning of Socialism. It is, after all, a movement for the working class in America. It is a movement for the workers' control of the means of production. It is a movement for the workers' control of the means of wealth. It is a movement for the workers' control of the means of land. It is a movement for the workers' control of the means of government. It is a movement for the workers' control of the means of education. It is a movement for the workers' control of the means of health care. It is a movement for the workers' control of the means of recreation. It is a movement for the workers' control of the means of leisure. It is a movement for the workers' control of the means of art. It is a movement for the workers' control of the means of science.

In the first place the Socialist movement is not only not a movement of Socialism, but a movement of Socialism in America. It is a movement of Socialism in America, and not of Socialism in Europe. It is a movement of Socialism in America, and not of Socialism in Asia. It is a movement of Socialism in America, and not of Socialism in Africa. It is a movement of Socialism in America, and not of Socialism in Australia. It is a movement of Socialism in America, and not of Socialism in South America. It is a movement of Socialism in America, and not of Socialism in North America. It is a movement of Socialism in America, and not of Socialism in Central America. It is a movement of Socialism in America, and not of Socialism in South America. It is a movement of Socialism in America, and not of Socialism in West America. It is a movement of Socialism in America, and not of Socialism in East America.

The leaders of the Socialist movement in America are not interested in Socialism in Europe. They are interested in Socialism in America. They are interested in Socialism in America, and not in Socialism in Europe. They are interested in Socialism in America, and not in Socialism in Asia. They are interested in Socialism in America, and not in Socialism in Africa. They are interested in Socialism in America, and not in Socialism in Australia. They are interested in Socialism in America, and not in Socialism in South America. They are interested in Socialism in America, and not in Socialism in North America. They are interested in Socialism in America, and not in Socialism in West America. They are interested in Socialism in America, and not in Socialism in East America.

Editor—Socialist-day, Monday.

The tone of the letter to the editor is not quite as high as usual, but it is regrettable that the socialist movement should have to put up with such criticisms. The Socialist movement is not a sect, but a party that is striving to educate the working class of the world.
