VICTORY AGAIN!!

TWELVE ALDERMEN!!

THE ELECTION - By Victor L. Berger

The battle is over. We have elected twelve aldermen and have made a gain of 10,000 votes over the vote of our city ticket in 1910, and substantial progress both in the ward and the representation.

The campaign was marked by a large number of meetings and speeches. The Socialist party was well represented in all parts of the city, and the work of the campaign was ably handled by the leaders of the movement.

In the final result, the Socialist ticket received 21,000 votes, which is an increase of 10,000 votes over the vote of 1910. The Social Democratic ticket received 20,000 votes, and the Republican ticket received 19,000 votes.

The Socialist ticket was elected by a large majority, and the Social Democratic ticket was elected by a smaller majority. The Republican ticket was not elected, but received a moderate vote.

In the city council, the Socialist ticket will have a majority, and the Social Democratic ticket will have a minority. The Republican ticket will have no representation.

The Socialist ticket will have 12 aldermen, the Social Democratic ticket will have 10 aldermen, and the Republican ticket will have 0 aldermen.

The Socialist ticket will have a majority in the city council and will have the power to pass legislation.

The Social Democratic ticket will have a minority in the city council and will have the power to block legislation.

The Republican ticket will have no representation in the city council and will have no power to block legislation.

Public Ownership vs. Private Graft!

[FROM ONE OF THE LEAFLETS DISTRIBUTED DURING THE PREVIOUS CAMPAIGN]" 

Ten Weeks, Ten Cents

The Service is Improved Under Public Ownership.

As the public ownership alone at private profits, they never can give the same comfort and service to those of their town as the public service does. They never can give the same comfort and service to the people of the town as the public service does. They never can give the same comfort and service to the people of the town as the public service does. They never can give the same comfort and service to the people of the town as the public service does.

The charges are reduced. In some of the cities where public ownership has been established, the average cost per passenger has been reduced from 30 to 50 cents per mile. In others, it has been reduced from 50 to 75 cents per mile.

The average cost per passenger in cities where public ownership has been established is about one-third of what it is in cities where private ownership prevails.

The cost of electricity under private and public ownership is given.

Further, in nearly every city the cost of electricity under public ownership has been reduced, it is found that the public service has furnished a much cheaper service than the private service.

As to street cars, under public ownership the cost of public street service car 5,000,000 in 1890 was 25.72 cents per mile. Under private ownership the cost was 37.6 cents per mile. So that the public service is 30 cents per mile cheaper than the private service.

Similar reduction in the cost of water and gas, and steam railroads.

The cost of electricity is reduced, and the service is improved. In some of the cities where public ownership has been established, the average cost per passenger has been reduced from 50 to 75 cents per mile.

The wages of the workers are higher under public ownership.

The railway companies say that they have reduced the wages of the workers because they have reduced the cost of operation. But the workers have not. They have had to work harder to do the same amount of work.

The average cost of labor per passenger in cities where public ownership has been established is about one-third of what it is in cities where private ownership prevails.

The cost of gas under private and public ownership is given.

TAKING HED.

The earth was not made for business. It has been hallowed down as a place where men can live. The meaning of life is to be human. And the prefabrication and advertisement of this idea can destroy the soul of man. It is necessary to serve the few.

The conventional sayings ring cowardly in the ears of men. The time has come for action. If we are to survive, we must work to the end.

We are all the same. We have the same needs.

Take care of your civilization, ye people of the pyramid builders. Long live labor, the making of the world.

Extended to see the truth.

Whoever owns a city always wants us to think the city is ours.

The city is our city, but we are not the city.

The people you work for are not interested in the city漂亮的.
FOR OUR NEW READERS:

THE COUNTRY is made up of working people, both industrial and agricultural. These people are the backbone of our society. In order to promote the interests of this group, we at the Milwaukee Social Democratic Publishing Co. are publishing this newspaper. Our aim is to help improve the conditions of the working class by providing them with the information they need to make informed decisions. We are committed to fighting for the rights of all workers, and our efforts are directed towards achieving this goal.

We believe that a strong and vibrant labor movement is essential for the well-being of our society. By working together, we can create a better future for ourselves and future generations. This newspaper serves as a platform for sharing ideas and experiences, and for building solidarity among those who share our values.

We encourage all readers to support our efforts by subscribing to our newspaper, attending our events, and spreading the word about our cause. Together, we can make a difference in the world.

EDITORIAL ETCHINGS.

When people are faced with different issues, it can be tough to know how to react. This is especially true when it comes to protecting foreign workers from discrimination. The news is out there, but their rights are being violated. It is important for everyone to speak up and stand together to support these workers.

In addition to protecting workers, we also need to pay attention to the needs of our own children. Education is crucial for the future generation, and it is important that all children have access to quality education. We must work together to ensure that every child has the opportunity to succeed.

Finally, we must also be aware of the challenges facing our community. Whether it's a lack of affordable housing or access to healthcare, we need to work together to find solutions. By standing together, we can create a better future for all.

Town Topics by the Town Crier.

There's a lot of talk in the unofficial press about the Social-Democratic candidates having been disciplined by the voters of their wards on election day of their candidates and their policies. On the contrary, an analysis of the vote shows that the Social-Democrats are the ones who have been disciplined by the voters.

In the down-town and ethnic wards our party had a low tide, but not in the working-class wards. Which shows that the rural voters and the workers are the ones who feel the impact of their votes, and not the city voters.

And furthermore, the Social-Democrats find themselves in the position of being the beneficiaries of the efforts of the other parties to gain the votes of the working-class electorate. The Social-Democrats have gained votes, not lost them.
