Some Editorial Comment.

Let the facts be in. If they will be, the Social-Democratic party will seriously carry the Fourteenth Ward election in Milwaukee, where four out of five of the votes are German. It appears that the German Social-Democrats have at last awakened to political life; and we hear that the Central Democratic committee may be formed under the lead of a rank politician. The popular German press is doing its utmost to bring this about. Later, it is said, the Polish element will also take part, but the Chicago dealers' trust, for the most part, is more Russian. The voice of the people is the voice of progress; but it is not the voice of profit!

Reports of Labor, Safety, Label, etc. The matter of labor labels is under review by the Federal Trade Commission. The commission is authorized to issue labor labels for use in the selling of goods manufactured by labor organizers. The new labels are designed to protect the consumer from being deceived by false labor claims. The commission has received many complaints about the use of false labor claims. It is hoped that the new labels will prevent such abuses.

Citizenship Assaulted!

Just as we go to press comes word that TWENTY males employed by the Power Mining & Milling Company, at Canady, have been discharged because they did not work on election day. This will make twenty-five of the thirty-five men employed at the company.

It seems that on Monday, the day before election, word went through the plant in the form of rumor that they would discharge anyone who did not work on election day.

We do not claim that the men were not at work, but all of them had all the work they could do.

Here is a free condition of affairs.

The action on the part of the company seems to have cost them a good deal of money they could have earned.

The company, however, seems to be in the black.

The men discharged were subscriptions to the Republican party.

The company, however, is in the black.
