The Chicago Daily Social Democrat has published an editorial denouncing the strike of the light-furnace workers in the Chicago plate-glass works.

"There will be a general election in the near future. Old parties and old issues are already emerging from the political haze."

In the Teuton district of the city, the old parties are domesticating in the national arena, but a Berlin cable announces that they fired 32 men and 200 employees, and 17 men on duty.

As an old soldier's reminiscence at Oswego, N.Y., the "great war" is over, and even now the men who fought in it speak of the event as the greatest of their lives.

Best known for the Universal Gospel, the Century, and the改良 the civil and moral state of the world.

The editor of the Sentinel is quite powerful over the action of the government in doing anything to help the people.

The Sentinel is to be shut down by the government, but it is not expected to last long.

CLEANSING FROM BUSY FIELDS.

In Yanke Land.

In the midst of the rush and roar of the metropolis, the strenuous pace of city life, the little, dainty village of Denby, in Michigan, affords a welcome opportunity for a change. There the atmosphere is wholesome; the air is pure; the days are long and bright; the nights are cool and restful. The people lead a simple life, working hard during the day and delighting in the companionship of their neighbors. The village has a pleasant village green, where the children play and the men gather to smoke and chat.

ACROSS THE POND.

In the recent Norwegian election, the members of the national convention of the Independent Labor Party were returned with a majority of 9 to 1. The party has also gained ground in the rural districts. The working classes are becoming more and more conscious of their rights, and are determined to fight for them. The Independent Labor Party is making good progress, and is likely to be a factor of importance in the political life of the country.

GLEANINGS FROM BUSY FIELDS.

Many of the reforms introduced by the government of the United States have been of great benefit to the farmers. The Homestead Act, for example, has provided a source of income for many poor families. The government has also established schools for agricultural education, and has provided loans to farmers. These measures have helped to improve the condition of the farmers and to increase the productivity of the soil.

SOCIALISTS IN ACTION.

The Wisconsin Socialist Labor party is making good progress. The party has a strong organization, and is able to carry on an active campaign. The party is popular, and is gaining ground in the rural districts. The party is determined to fight for the rights of the working classes, and to establish a socialist form of government.

The Independent Labor Party of Michigan is also gaining ground. The party is making good progress, and is likely to be a factor of importance in the political life of the state.

Why the Moinders Are Striking.

In view of the attention which the strike is getting, the Moinders in Chicago have been asked to explain just what the strike is about, and for this purpose we have the privilege of getting a copy of the official minutes of the meetings held by the members of the organization, which we will print below as far as possible.

The strike began on May 7 for the reason of a matter of laboriousness on the part of the men through the following discussion.

A short meeting was held at 7:30 north of the state line, and the resolution that the strike be immediately called was carried by a vote of 10 to 1.

The strike has been continued since then, and has involved a number of men in the Chicago area. The strike was called for due to the fact that the members of the organization are not receiving enough compensation for the work they are doing.

There is no special reason why the Moinders should be the ones to strike, as there are many other labor unions who are striking for the same cause.

The strike is not only affecting the Moinders in Chicago, but it is also affecting the labor unions in other parts of the country, and it is a matter of great concern to the working people everywhere.

The Strike in Milwaukee.

A similar strike is also taking place in Milwaukee, Wisconsin. The Moinders in this city have also been asked to explain the strike, and for this purpose we have the privilege of getting a copy of the official minutes of the meetings held by the members of the organization, which we will print below as far as possible.

A MESSAGE FROM DIETZ.

The Man the Corporations Are Trying to Shoot Down in Sawyer County, Writes the People a Letter, Through the Social-Democratic Herald.

Cameron Daly, The Applause, Feb. 20, 1906, Waukesha, Wis., Editor SOCIAL-Democratic HERALD.

Honorable Reader:

I am writing you a paper because I want to tell you about something I think you ought to know. It is not a new idea, but it is one that has been around for a long time. The idea is that we should stop selling meat to the people and start selling ideas to them. In other words, we should stop trying to sell them the things they want and start trying to sell them the things they need.

I believe that if we could sell people the ideas that they really need, they would be much happier. They would have more freedom, more security, and more control over their lives. They would be able to make their own lives, instead of having someone else make them for them.

The idea of selling ideas is not new. It has been around for a long time, but it is not widely understood. In fact, it is often laughed at. But I believe that it is the only way we can hope to solve the problems that face us today. So I am writing you this letter to tell you about it.

Cameron Daly.
