Mr. Gompers' Convention.

By Victor L. Berger.

T. will have to decide whether the movement for a national convention of national and international unions is to be the most important event of the year in the labor movement. The movement is an outgrowth of the meeting of the American Federation of Labor held in September last in Chicago. The convention is expected to be a large one, and will be attended by delegates from all parts of the United States, as well as from Canada, Mexico, and Cuba.

The convention will be a milestone in the history of American labor. It will be the first time that the representatives of all the national and international unions of the United States have met together. The meeting will be a test of the strength and unity of the labor movement, and will be watched with interest by all workers in the country.

The convention will be held in Milwaukee, Wisconsin, on December 8th and 9th. The Milwaukee Federation of Labor has been chosen as the host union, and will make every effort to make the meeting a success.

Some Editorial Comment.

"The church" has been mentioned in the press as one of the obstacles in the way of the election of a president. The church is said to be against the candidate who wants to "promote" the cause of labor. However, the church is a powerful force in the country, and it is impossible to ignore its influence. It is true that the church has been slow in recognizing the importance of labor, but it is making progress, and its attitude is changing.

The church is no longer content with merely supporting the cause of labor. It is taking an active part in the movement, and is doing everything in its power to help the workers. The church is a powerful force, and it is impossible to ignore its influence. It is true that the church has been slow in recognizing the importance of labor, but it is making progress, and its attitude is changing.

There are a number of reasons why the church is slow in recognizing the importance of labor. One of the reasons is that the church has been influenced by the idea that labor is a "sin." This idea is mistaken, and it is time that the church abandoned it. Labor is not a "sin," but it is a necessary part of the social system.
