Who Gets the Money?

A

WHEN a man is not even sure that he is going to make more money by making less of it, he is in a state of mental disequilibrium which, if not properly treated, may lead to disaster. The material prosperity of America is due to the fact that the man who makes the least effort to make the most is the man who makes the most money. The man who does not try to make a dollar is the man who makes two dollars. The man who does not try to make a hundred dollars is the man who makes a thousand dollars. The man who does not try to make a million dollars is the man who makes a billion dollars.

If you are interested in making money, you should be interested in making more money by making less of it. If you are interested in making more money, you should be interested in making more money by making less of it. If you are interested in making more money by making less of it, you should be interested in making more money by making less of it.

SOCIALIST LEGISLATORS AT WORK

The Socialist party has been working for years to organize the working class of America into a strong and united body. This has been done under the leadership of men who are not only intelligent and who are not only able, but who are also honest and who are not only honest, but who are also brave. As to the Upper House

In order to fully understand the problems of our government, it is necessary to read the reports of the various committees of the Senate and the House of Representatives. These reports are published in the Congressional Record and are available for purchase at any newsstand.

A thorough knowledge of the workings of the government is necessary for an understanding of the issues that are being debated. The government is made up of several branches, each with its own duties and responsibilities. The President is the head of the executive branch, which is responsible for enforcing the laws of the land. The Congress is made up of the Senate and the House of Representatives, which are responsible for making laws. The Supreme Court is the highest court in the land, and is responsible for interpreting the laws.

The Rev. Frank Dixon
Is Answered Again

HE IS MISREPRESENTING SOCIALISM NIGHTLY AT THE MIDWEST
MUCH PERVERSE IN THE ABSENCE OF IT OR WANT OF FAITH?

I have the Rev. Frank Dixon's book, "Moneys," for sale at Fort Print. I am willing to have it quoted, or write upon the subject in the press, on the following terms: -

1. He must not represent that the money is Jewish or anything else.
2. He must not use the word "socialism" in any way.
3. He must not use the word "democracy" in any way.
4. He must not use the word "labor" in any way.
5. He must not use the word "capital" in any way.
6. He must not use the word "profit" in any way.
7. He must not use the word "interest" in any way.
8. He must not use the word "wealth" in any way.
9. He must not use the word "property" in any way.
10. He must not use the word "income" in any way.

These terms will be in force until further notice.

The usual reward.

A few days ago a lady from the socialistic party in Chicago informed me that she was no longer able to continue her work because of the pressure of her employers. She said she had worked eleven years for the same employer and never had more than a few days' sick leave during the whole time. She added that she had been told by her employer that she would not be employed again unless she took the "socialistic" attitude towards her work. She said she had tried to explain to him that she was not a socialistic person, but he would not listen to her. She asked me what she could do. I told her that I would go and see the employer and try to persuade him to rehire her. She thanked me and left.

I went to see the employer and explained to him the situation. He said he was very sorry to hear that she had been told to take a "socialistic" attitude towards her work. He said he would rehire her immediately. She came back and thanked me for my help. She said she would try to explain to him that she was not a socialistic person, but she would do her best to make him understand.

Tenets of Social-Democracy.

"As Principles of International Co-operation as an Absolute National Economical Necessity and a Social Revolutionary Necessity" by J. H. Price, 1916

We, the Socialists in this country, believe that the American people as the modernizers of the world's progress, have become a socialized democracy, and that this is the only way to real social democracy. In this view the idea of liberty and the Republic is now in danger of being lost.

Socialism is an absolute necessity for all men. It is the only way to make the world safe for all. It is the only way to make the world safe for labor and the poor. It is the only way to make the world safe for all.

For the benefit of labor and the poor, and the common wealth of all, to form a socialized democracy. It is the only way to make the world safe for labor and the poor. It is the only way to make the world safe for all.

The Socialists of the United States are determined to do everything in their power to make the world safe for all, and to make the world safe for labor and the poor. They are determined to make the world safe for all, and to make the world safe for labor and the poor. They are determined to make the world safe for all, and to make the world safe for labor and the poor.
