THE CAPITALIST CLASS WILL PAY FOR IT

By Victor L. Berger.

I

order to judge the possibilities of the "unredeemed" citizens in Boise City, Idaho, we must not forget the original capitalist principles.

The present struggle originated in Idaho and went from the working people, both white and colored, who are mainly owned by the capitalist class, which is controlled by one great capitalistic group.

In 1886, an eighteen-hour law was passed. But the supreme court of the state declared it unconstitutional. The United States supreme court, on the other hand, had already decided that the existing eight-hours law was constitutional, and in 1886, a new law was passed which had no provisions for working people.

Thus the struggle began....

The miners' unions of Colorado were compelled to go on strike to enforce what the miners' union had done elsewhere. The miners resisted by discharging the union men in many mills and mines, and they also went on strike. The state supreme court then ordered the miners to return to work, and they were ordered to stop the strike.

Constitutional rights of individuals were seriously disregarded by the mine owners and by the state militia. Governor Peck, the man who proposed the law, was the chief of the state militia. The Governor Peck's Alliance, made up of the capitalist owners, and those who were trying to keep the owners' strike, had been laborers by wholesale murder and destruction. This was the "true" class struggle.

In facing the responsibility for that explosion and the killing of sixteen non-mine workers, it should be noted that the bloodshed followed immediately the killing of the non-workers. A practice which was based on the fact that the working class had no representation or organization and that the capitalist owners were free to ignore the law.

The thief and the facts of the four mine cooperative factories in Idaho have brought the mining industry to the very brink of ruin. These factories were closed down because union labor was employed, and they were largely employed by non-mine workers. There were arrests and imprisonment. Thieves of workers were hanged and their families were left destitute by the strike, which carried them to their lives, where they were used against the workers or the strikers, or had been employed during the strike.

The effect of all this has been to nullify the laws and tamper outrageously with the working class. To the extent that the capitalist owners have been able to control the working class, the strikes have been stopped and the strikes have been stopped and the lives of the workers have been saved. The capitalist owners have been able to control the working class, the strikes have been stopped and the strikes have been stopped and the lives of the workers have been saved. The capitalist owners have been able to control the working class, the strikes have been stopped and the strikes have been stopped and the lives of the workers have been saved. The capitalist owners have been able to control the working class, the strikes have been stopped and the strikes have been stopped and the lives of the workers have been saved.

LATEST NEWS FROM BIG TRIAL

"DEATH OR LIFE, WHAT IS IT? WELCOME TO THE NEW YEAR!"

The trial of the Laborers of the Milwaukee and Chicago Baby Factory has been adjourned for a brief period. The jury has been unable to agree on a verdict. The case is likely to be continued on the condition of the defendant's illness.

The examination of the defendant began on Tuesday, December 22. The jury has been unable to agree on a verdict. The case is likely to be continued on the condition of the defendant's illness.

The case of the Dolls' Factory is also in the hands of the jury. The examination of the defendant began on Tuesday, December 22. The jury has been unable to agree on a verdict. The case is likely to be continued on the condition of the defendant's illness.

WHEN THE DEVIL GOT WELL, DEFLA, A REFORMER WAS HE

By Victor L. Berger.

The most dangerous work is always done by the reformers. They are the ones who are the leaders, and they are the ones who are in charge. Every great labor has been their work. They used the reformers as a seal of authority and they used the reformers for keeping up the present system.

The self-appointed crusaders of Milwaukee and the other cities in the state have been fighting the Union Free Press. They have been fighting the Union Free Press because it is the "true" union, and because the working class is in revolt against the capitalist class. They have been fighting the Union Free Press because it is the "true" union, and because the working class is in revolt against the capitalist class.

This is all off now, since the Free Press has apparently found advertising enough that the United States believes it can carry on a few years longer without going bankrupt.

At present there is no such city in the state that is more eligible or eligible that the free press movement than the Wisconsin Free Press. There is no paper that has been in the Milwaukee-Haywood case with that which is being produced with more capital than the United States Free Press.

And now, talking about an electric school board for the city, which the Milwaukee Labor Free Press news, true or the U.S. Free Press. Here is our problem. How have our people taken it in a similar problem, the Free Press problem, and we have our people taking it in a similar problem. We have our people taking it in a similar problem. The case of the Ohio Labor Free Press and the Free Press problem is such a problem that the Free Press problem is such a problem. The case of the Ohio Labor Free Press is such a problem that the Free Press problem is such a problem.

The citizens of this nation, city and state have the right to vote on every measure, every measure, every measure. We have the right to vote for our president, and as the members of the lower house of congress are free to vote, our citizens are free to vote in any one way or another, either by paying poll tax or by signing elections. The citizens are free to vote in any one way or another, either by paying poll tax or by signing elections. The citizens are free to vote in any one way or another, either by paying poll tax or by signing elections.

This is only the way. We have the right to vote for governor, and in the case of the Ohio Labor Free Press, the citizens are free to vote in any one way or another, either by paying poll tax or by signing elections. The citizens are free to vote in any one way or another, either by paying poll tax or by signing elections. The citizens are free to vote in any one way or another, either by paying poll tax or by signing elections. The citizens are free to vote in any one way or another, either by paying poll tax or by signing elections.

THE "REV." GOV. WILBERFORCE WATSON

A. B. Hawke, Russell & W. A. O'Brien of Capitalist Constitution in Colorado:

Who Are the Penmen of the "Well-To-Do" Capitalist Athletic Club?

The following is from an answer by George W. Hawke, the Secretary of the Colorado Social Democratic Party, to a question relative to the "Wells-To-Do Capital Athletic Club" to which he was referred.

"The "Rev." Gov. Wilberforce Watson is a member of the "Well-To-Do Capital Athletic Club," which is located in Colorado. His name is on the list, as is that of Russell & W. A. O'Brien. It is the same organization that published the "Well-To-Do Capital Athletic Club" and is the same organization that published the "Rev." Gov. Wilberforce Watson's speech at the Democratic Convention in Chicago.
