A STATE PUT IN PWAN... AND WHO IS YOUR UNCLE?

By Victor L. Berger.

At a recent convention of the Wisconsin Democratic Party, Governor Grover Cleveland was also a favorite candidate. Governor Cleveland had been a favorite candidate at the previous convention, but this time he was out of the running.

"Honesty is the best policy," says Mr. Cleveland, "and always has been and always will be."

The Governor is in favor of the free silver issue, and has been for many years. He has always been a strong supporter of the movement, and has always been ready to fight for it.

Uncle Tom is the largest supporter of the movement. He is in favor of the free silver issue, and has always been a strong supporter of the movement, and has always been ready to fight for it.

However, the Governor is more interested in the gold issue. He has always been a strong supporter of the movement, and has always been ready to fight for it.

WHY CONGRESS SHOULD ACT

ASSEMBLYMAN ALDRIDGE'S ADDRESS AT MAISON

The problem before us today is one of the most urgent and momentous in our national life. It is a problem that affects all men and women, rich and poor, young and old, in every walk of life. It is a problem that touches the very heart of our democracy and the very foundation of our civilization.

The problem is the problem of poverty. It is the problem of the millions of men and women who are struggling to make ends meet in a world of soaring prices and falling wages. It is the problem of the millions of children who go to bed hungry and wake up hungry, because their parents cannot afford to feed them.

We have been told that poverty is a temporary problem, that it will be solved by economic recovery and by the growth of industry. But we know better. Poverty is not a problem that can be solved by economic recovery alone. It is a problem that requires a comprehensive program of social and economic justice.

We must act now, while the urgency of the situation is at its peak. We must act now to provide a living wage for all workers, to guarantee a decent standard of living for all families, and to provide a safety net for all who are in need.

This is not a matter of charity. It is a matter of justice. It is a matter of our commitment to the principles of democracy. It is a matter of our commitment to the principles of humanity.

We have the power to act. We have the resources to act. We must act, for the sake of those who cannot act for themselves.

Let us act now, before it is too late.
TO FIGHT THE WHITE PLAGUE

HOW THE USAGE SLAVES CAN EASIE Y NAVIGATE

As initiated under the Black Act in 1850, it was a federal law that provided for the return of runaway slaves. The law was expanded several times and applied to Native Americans as well.

COOKING

The working class has the most important food—roots in the grocery store. It is the least expensive and the most nutritious way to cook. Roots are simple to cook and do not require a lot of skill or money. Roots can be prepared in a variety of ways, such as roasting, baking, or boiling.

WORKMEN NOT IN FAVOR

The Haymarket riot in 1886 was a significant event in labor history. It occurred on May 4, 1886, when a crowd of workers gathered in Haymarket Square in Chicago, Illinois, to protest the death of six demonstrators, including four policemen. The mob was met by a police response, and a gunfight resulted. Four policemen were killed, and 15 others were wounded. The event marked the beginning of the labor movement in the United States.

NEW PRESS NOW HERE

The accompanying table is read from the meteorological statistics of the city of Milwaukee. It is a very pretty display, for it is the first time that we have had a weather map of the city. The city is engaged in the manufacture of machinery and is one of the most important manufacturing centers in the country.

GARDEN TOOLS

If you need Garden Tools, Lawn Mowers or Garden Hose, you serve your own interests best by buying directly from a retail hardware dealer. None of the articles that enter such a store can possibly fail to give you satisfaction—for the hardware dealer is an experienced buyer and lays in goods that are of the best quality. Furthermore, a literate person—such as a mail-order house—can be trusted, for it is not the practice any such concern to send goods that are inferior. On Wednesdays and Saturdays, a few features of the goods are held in regard for the benefit of the staff, and on Friday and Monday, the staff is on their own account, and if goods are sold that are not of the best quality, the staff is to blame for it.

Keep Your Pains from the Hardware Dealer

Did you ever notice how differently two houses that received a fresh coat of paint at practically the same time look after a short season? One retains its beauty; the other is faded, splattered, and all a matter of the quality of paint used. No hardware dealer would be guilty of selling you paint that would prove unsatisfactory merely so that he could sell it to you at an attractive price. Hardware dealers know that paint that is sold at a low price, rests on each gallon of paint purchased is the best possible investment. They pay a few cents more for the reliable kinds, knowing they serve you best through such purchases.

Firefighter-orange was a national emergency, and a mobile TV studio was set up in front of the building.

DIESEL, NO TURF FOR YOU!

The difference between good and bad hardware dealers is that the former have only a few products in their stock, while the latter carry a wide variety of items. The good dealer carries only the best quality goods, while the bad dealer carries inferior goods.

KEEP YOUR PAINS from the Hardware Dealer

ASSOCIATED RETAIL HARDWARE DEALERS

If you do not know how to get the best deal on a hardware product, then you can always come to an associated retail hardware dealer. They will give you advice on how to get the best deal.
